ALLIES ARE IMPROVING POSITIONS

FORCES ARE STRENGTHENING THEIR POSITION ALONG LINE IN NORTHERN FRANCE.

TRANSPORTATION POOR

Germans Are Experiencing Great Difficulty With Transportation and Communication Service.

Washington, May 8.—The allied forces are strengthening their position all along the line in northern France, said a statement today by British military mission. Were it not certain another great attack will be delivered by the Germans in the very near future one might be misled by the number of small operations and successful raids into thinking the situation had settled down into the old stationary trench warfare phase again, said the statement. The enemy is experiencing great difficulty with his transportation and communication service in addition to our harassing fire. Heavy rains have fallen in Flanders and the Germans now realize in the old Ypres salient what Flanders mud really is.

Await United States.

London, May 8.—The Anglo-French front in France will stand firm and hold its position throughout the summer while waiting for aid to come from the United States, said Winston Churchill, minister of munitions, in reply to a resolution of the executive committee of the national brass workers and metal mechanics' union. The resolution exhorted all workers at home to help the soldiers in the trenches by increasing the resources of munitions and swell the fighting forces.

English Advance.

London, May 8.—Successful minor operations last night resulted in the advance of the British line a short distance in three localities in the Amiens sector, between the Somme and Arras rivers, the war office announced today. Several prisoners were captured. Increased activity was developed by the hostile artillery this morning on the Flanders front between Mottin and Kemmel.

Wait Renewed.

Paris, May 8.—Heavy artillery fighting occurred last night on both sides of the river southwest of Amiens, the war office said.

Along the Battle Line.

Along the battle line in northern France the allied troops still await the shock of renewed heavy fighting by the Germans. Apparently the enemy has been waiting for a great deal with enemy transport and he has not been able to perfect his arrangements.

Have Advantage.

Having gained the most advantageous positions in local fighting, the allies are awaiting the next effort of the Germans, which has been delayed much longer than any previous full-scale attack. The fact that the allies are in the quiet positions and this fact must add to the perturbation of the enemy, who has nothing remarkable to show for his heavy losses in the past several weeks.

Anglo-French Front.

The artillery firing continues violently on important sectors. The enemy is shelling violently the Anglo-French front southwest of Ypres and the sector south of the Somme between Villers-Bretonneux and Halles. These sectors saw the heavy fighting previous to German repulse north of Ypres five days ago. Enemy fire against the southern side of Arras sector and north of Albert has been intense.

Aerial Activity.

There has been great aerial activity on the sector northwest of Toul and Captain James Norman Hall, well known as a flyer in French and American armies, is reported making a little in which he and two other Americans engaged four Germans. Two of the enemy airplanes are believed to have been brought down. The Americans also have been making a little in which he and two other Americans engaged four Germans. Two of the enemy airplanes are believed to have been brought down.

In Italy.

Except for fruitless patrol raids by Austrians and limited artillery fire, there is no activity on the Italian front. A political crisis involving the security of the Lloyd George government has arisen in Great Britain over a letter written by General Maurice, formerly chief director of military operations, in which he questioned the veracity of the premier and chancellor of the exchequer in the house of commons. A parliamentary bill known as the Andrew Bonar Law for the government and former Premier Asquith resulted in the government acceptance of a motion by Mr. Asquith that the house determine the veracity of the statements of General Maurice. The motion will be debated in the house Thursday and the government has decided to stand or fall on the vote taken. The government looks on the motion as a vote of censure and called in supporters to be in the house for vote tomorrow.

Australians Gain.

With the British army last night made another advance, pushing the forward five hundred yards along a front of six hundred yards near Salby-le-Sec on the sector east of Amiens. They also pushed back

American Soldiers Now Occupy Place On Italian Front

[BY ASSOCIATED PRESS.]
New York, May 8.—The presence of an American contingent and a Boerish legion on the Italian front is reported in a dispatch from Austrian press headquarters, dated April 8, to the Berliner Tageblatt, a copy of which has been received here. The number of supposed Americans or to what arm of the service they belong is not reported by the correspondent, who adds that British and French auxiliary troops are no longer on the Italian front.

The Germans three hundred yards along a front of five hundred yards west of Mourmancourt just above Salby-le-Sec. Notwithstanding a heavy barrage the Germans were unable to prevent their advance.

Fire on Americans.

With American army in Picardy, May 8.—The artillery fighting continues along the sector held by American troops on the Picardy battle front. There is no change in the situation. Premier Clemenceau visited the Americans yesterday afternoon and congratulated them on the fine showing they have made. He expressed particular pleasure at the harmonious way in which the French and Americans are working together. The premier inspected the billets, kitchens and talked with officers and men.

ANARCHY AND RIOTS CAUSED BY GERMANY

[BY ASSOCIATED PRESS.]
London, May 8.—Anarchy is spreading throughout the Ukraine as result of Germany's action in replacing the government according to an Exchange dispatch from Copenhagen. There has been riots at several places and during serious outbreaks at Kiev of late a number of persons were killed. The Ukrainian premier who escaped with slight wounds. The Socialist Vorwarts of Berlin publishes the official Ukrainian statement regarding events in Kiev on April 26. German soldiers entered the Rada at four o'clock in the afternoon, surrounded the members and shouted "Hands up." The president of the Rada, who protested, was thrown to the ground and other members ill treated. The German ambassador declared the arrest of the members of the government had taken place without his knowledge.

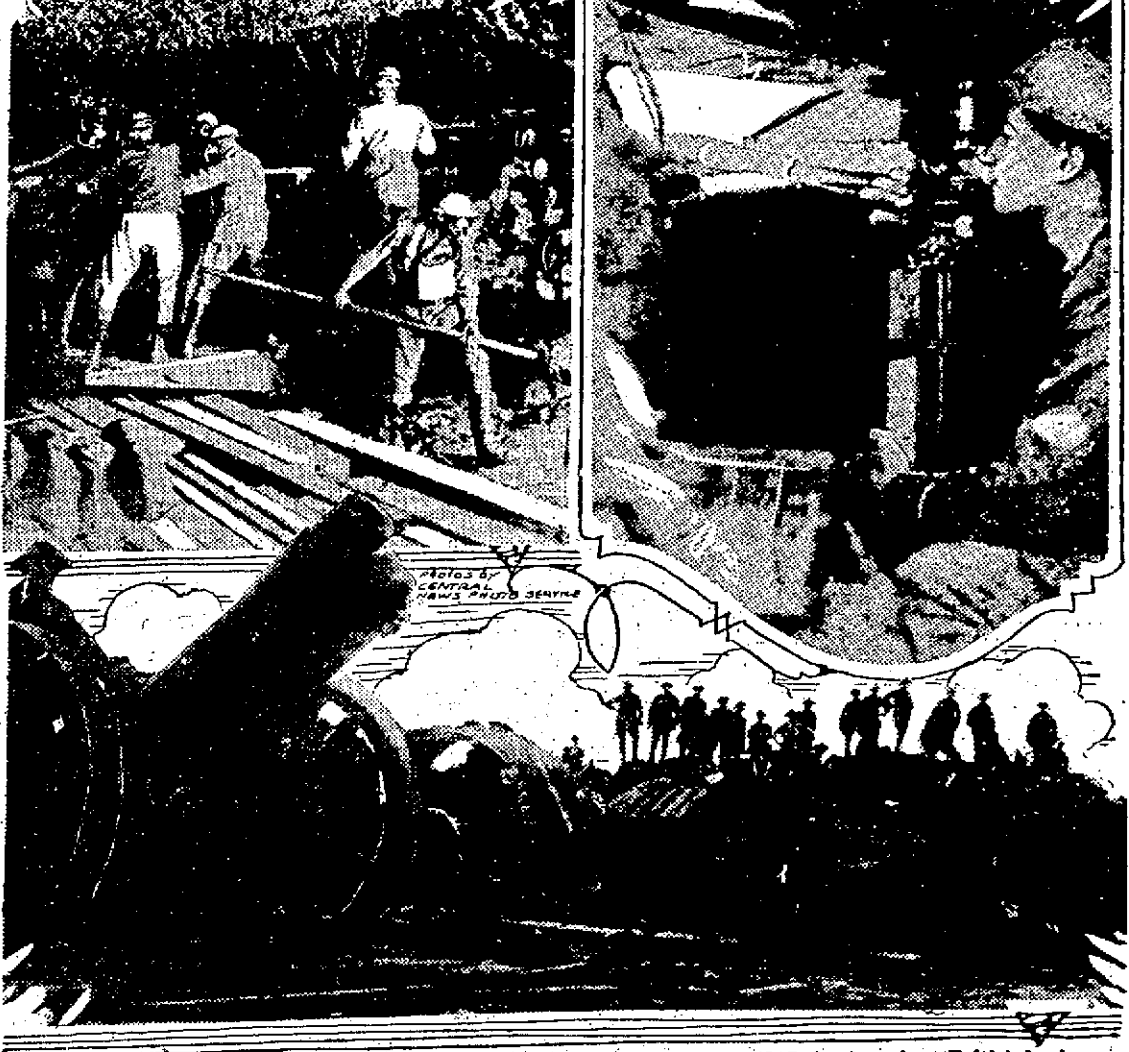

FINANCIAL REPORT OF I. W. W. IS PRESENTED

[BY ASSOCIATED PRESS.]
Chicago, May 8.—Additional financial report of the I. W. W. showing sharp increase in receipts after America entered the war were submitted by the government today soon after the trial of 112 leaders of the alleged violation of the espionage act. Only a part of the I. W. W. disbursements during the period of alleged anti-war campaign was shown by the report submitted by Mr. M. Bailey, expert accountant for the government. The government expected to take up the question of suborning, or direct action, by which the I. W. W. aimed to "revolutionize industry and the social system." After conclusion of the testimony and financial report late today photographs showing destruction of property by members of the organization, where exorbitant demands of employers had been denied, were among evidence on hand. It was alleged by the government that the I. W. W. was selective at the defendants tried to disrupt the national war program.

WAGE ANNOUNCEMENTS TO BE MADE THURSDAY

[BY ASSOCIATED PRESS.]
Washington, May 8.—The railroad wage board will announce tomorrow its awards in the application of railroad employees for wage increases.

WITH THE BRITISH ARMY AS IT FIGHTS TO HOLD BACK HUNS

Masked gunners serving their piece, an advanced British observation post, and (below) a giant British tanker and its company.

Fresh from the battle front in France, these pictures help to give an idea of how the British are meeting the terrific German offensive. The lower photo gives an idea of the ground on which the two forces are fighting and one of the types of guns with which the British are fighting. The figures in the masks shows a British observer looking through a new type periscope at the enemy's position. The figures in the masks are wearing a big gun, which is hidden from the view of German airmen. Long training has enabled the allied soldiers to fight for hours while wearing their gas masks.

American Tells Of Splendid Fighting Of U. S. Soldiers

[BY ASSOCIATED PRESS.]
An Atlantic Port, May 8.—Dr. Wm. Ellis of Swarthmore, Penn., who arrived here last night on a French liner, described the fighting three weeks ago in the American sector at Apremont, northwest of Toul, which he witnessed. "Our boys fought like heroes, although they were outnumbered four to one. I saw one soldier, a Greek by birth, who joined the army in New York, die while fighting from his hand. He drew a knife, leaped forward and killed a German lieutenant. The Americans never gave an inch, and always drove the enemy back. They did not lose a prisoner, but captured three truck loads of the enemy. If I had not been on the spot I should not have believed some of the instances of bravery from the pictures stuff you might call it. One captain from Boston, who was a dry goods merchant at home, was in the trench when German ships started to move forward, preparatory to a raid. "This captain ripped off his shoulder straps to prevent identification by Germans, and seized a rifle. To hell with the caps," he shouted to his men, and went over the top in the lead. Well, they captured that German trench and came back with prisoners, the captain being unhurt."

FINANCIAL NEEDS OF ALLIES IS REPORTED

[BY ASSOCIATED PRESS.]
Washington, May 8.—A report on the financial needs of the allies was reported to the treasury department today by Oscar T. Crosby, president and American member of the allied council on finance and public credit. Crosby, who has been since last September, Mr. Crosby, who is still assistant secretary of the treasury, will assist in working out a plan of extending greater credit direct to France, Italy and other co-belligerents, instead of through Great Britain. This will have the effect of making the United States the financial branch of the council, which is organized in Paris about five months ago and consists of representatives of the principal allied governments. It has acted as a board of priority for American loans.

FREIGHT TRAIN STALLED BY CLOUD OF INSECTS

[BY ASSOCIATED PRESS.]
Stockholm, Wis., May 8.—A Burlington freight train was stalled here yesterday when it ran into an immense cloud of bugs. The crushed bodies of the insects piled up to such an extent the wheels slipped round without moving forward. It was necessary to clean the rails before the train could move. A headway the engine men reported.

INCREASE LIMIT TO THIRTY MILLION FRANCES

Paris, May 8.—Under decree published this morning in Journal Officiel the limit of circulation of the banks of France is raised to 30 billion francs. The previous decree fixed the maximum issue of paper money at 27 billion francs.

CALL FOR SELECTS HAS BEEN FILLED IN STATE

[BY ASSOCIATED PRESS.]
Madison, May 8.—Adjutant General Holway announced today the call for 500 men within draft age to join the National Guard in East Lansing, Mich., to take up mechanical and military training, has been voluntarily filled. Hundreds of applications were received which could not be accommodated.

U. S. FLYERS IN EXCITING AIR BATTLE

CAPTAIN JAMES HALL, AFTER THRILLING COMBAT IS SEEN LANDING BACK OF THE GERMAN LINES.

WERE ON PATROL DUTY

Two Enemy Machines Dropped to the Ground After Contest—First American Airplane Insignia Displayed.

[BY ASSOCIATED PRESS.]
With the American Army in France, May 8.—After a thrilling battle with enemy airplanes 10 miles north of Pont-a-Mousson, Captain James Norman Hall, one of the leading American aviators, made a spiral dive for the earth and was last seen close to the ground apparently trying to land. His fate is not known but it is believed if he landed safely and was made a prisoner he will later on make his escape.

Sight Airplanes.
Captain Hall, with two others, was patrolling between St. Mihiel and Pont-a-Mousson. When they over Fagny-sur-Moselle four enemy Albatros airplanes painted with black and white stripes were seen.

Hall Attacked.
The Americans attacked, Captain Hall singling out one of the enemy drove him downward, while firing with his machine gun. The pair made a spiral dive from six thousand meters to four thousand when the German suddenly started to rise. In a quick turn he poured a stream of machine gun bullets into the bottom of Captain Hall's machine.

The American machine, Captain Hall promptly came out of the spiral and made a dive for the earth. He was last seen attempting to complete this maneuver. In the meanwhile the enemy machine had engaged dropped toward the ground. It is not known what happened to them, but two apparently were in distress. No credit for a victory is given the Americans because official verification of the destruction was impossible.

American insignia.
Captain Hall's machine had painted upon its side the first American airplane insignia to appear on the battle line. It was in the form of a "hat in the ring" sign showing a starry striped high hat usually pictured on Uncle Sam, surrounded by a golden ring.

German machines were out in force. Alarm after alarm was answered by the Americans. Lieutenant Cunningham engaged one machine when five more of the enemy joined in. The lieutenant kept up the fight until his machine gun jammed when he returned to the American line with ten bullet holes in his plane.

The usual German game was to have a small number of planes appear near the American line while a reserve of four or five machines remained out of sight until the Americans came into action. The reserve

United States Defies Hun Submarines And Sends Wheat To Swiss

[BY ASSOCIATED PRESS.]
Washington, May 8.—In defiance of the German submarine the United States is sending grain to Switzerland aboard armed ships under heavy naval convoy prepared to fight their way through the danger zone. Two grain ships left an Atlantic port some time ago, two more sailed last week and others will go soon.

The decision to supply Switzerland without awaiting the elapse of the three months time limit set by Germany is not only a defiance of the submarine commanders the vessels carrying the supplies must not be molested was made owing to the critical food situation in the republic. A supply of grain was sent to Switzerland some time ago.

Under the German safe conduct arrangement, the grain ships were to fly both the American and Swiss flags, touching only at Sette, the French port turned over to the Swiss. When the Germans refused to guarantee safe conduct until three months had elapsed, the United States decided to send the vessels forward with only the American flag, and touching at any convenient French port.

would then swoop down in an attempt to capture the ships. The American aviators met this by answering alarms with twice the number of machines it was reported the Germans had. The aviators used Niuport pursuit machines. As a result of today's activity it is believed the Germans will send some of their best flyers to this sector in an effort to annihilate the American flying forces.

THIRTEEN KILLED IN ACTION LIST SHOWS

[BY ASSOCIATED PRESS.]
Washington, May 8.—The casualty list today contains seventy-five names, divided as follows: Killed in action, thirteen; died of accident, two; died of disease, three; wounded severely, thirteen; wounded slightly, forty-one; missing in action, three.

The wounded slightly list contained the names of Privates Rube Nelson, Kenon, Wis., and Samuel Caudill, Sax, Wis.

Mr. and Mrs. L. C. Brewer of South Bluff street have returned from Los Angeles, Calif., where they spent the past winter.

Mr. Dumanag of Hammond, Ind., is spending a few days in the city visiting friends and relatives.

EMPEROR WILLIAM HAS RETURNED TO POTSDAM

Berne, Switzerland, May 8.—Emperor William returned to Potsdam, owing to the political crisis resulting from the rejection of the suffrage reform by the Prussian Diet. Count von Helldorf, the emperor's chamberlain, has been summoned to Potsdam.

CURTAIN SUGAR SUPPLY ON ORDER OF SWENSON

[BY ASSOCIATED PRESS.]
Madison, Wis., May 8.—To curtain sugar supply in Wisconsin, Magnus Swenson, federal food agent, has issued an order effective May 15, outlining the administration of the law. The agents put on the sugar ration at hotels, restaurants, boarding houses, wholesale and retail dealers in sugar, bakers, cracker manufacturers and persons manufacturing foodstuffs such as jam, confectionery, chewing gum, etc. The rules also hit ice cream parlors that sell sherberts. A large number of these establishments have had their supply cut down to 5 percent.

"The method of calculation will be based on the manufacturers' performance for the first four months of 1918; January, February, March and April," said A. J. Melville, secretary of the food administration. "An average for the sugar used for these four months will be taken and then eighty per cent or fifty per cent of this average as the case may be will represent the quota the manufacturers are entitled to. The food administration is very anxious to conserve sugar in every way possible, permitting its normal use for medicines, meats, milks, vegetables, fruits and ice cream and especially for the cooking and baking uses. It is anxious to stop any increase of sugar in the manufacture of confectionery and soft drinks."

GERMANY AND FINLAND WILL NEGOTIATE TREATY

[BY ASSOCIATED PRESS.]
Stockholm, Sweden, May 8.—Germany and Finland, it is announced officially, have decided to negotiate a treaty regarding the demarcation of the fortifications on the Aland island. The fortifications, the announcement says, were constructed during the war contrary to international convention.

FRENCH WOMEN PROTEST AGAINST NEW REGULATION

[BY ASSOCIATED PRESS.]
Paris, May 8.—Leading French suffragettes are protesting against a new regulation under which women are excluded from the privilege of distribution of tobacco by cards. Madame Duvivier Schlumberger considered the measure arbitrary and unjust. Madame Jewel Selgried, president of national council of women, approves the measure. She declares the tobacco should be rationed for the Police, who have earned it.

NICARAGUA DECLARES WAR AGAINST HUNS

[BY ASSOCIATED PRESS.]
San Juan Del Sur, Nicaragua, May 8.—Diego Manuel Chamorro, former minister of foreign affairs, has been appointed Nicaraguan minister to the United States. Chamorro yesterday declared war on Germany. The government is now represented at Washington by a charge d'affaires.

SON DRAFTED; FATHER KILLS SELF WITH GUN

[BY ASSOCIATED PRESS.]
Sheboygan, May 8.—John Diefenthaler, 59, of the town of Rhine, committed suicide yesterday by shooting himself through the chest with a shotgun. Diefenthaler had been melancholy for some time, due to the fact that his only son had been found eligible for military service, and would leave with the next contingent.

Former Hun Minister Will Leave Argentina In Few Days for Home

[BY ASSOCIATED PRESS.]
Buenos Aires, May 8.—Count Von Luxburg, former German minister to Argentina who was dismissed by the Argentine government last fall because of his notorious "spurious versant" message and other activities objectionable to Argentina is finally about to sail for home. His health and various complications regarding arrangements for his voyage has caused his departure to be postponed several times.

It is now announced that Count Von Luxburg under an allied safe conduct will sail tomorrow on the Swedish motor steamer, Suecia. Dr. Pearl, former German minister to Peru who was handed his passport by the Peruvian government when they severed relations with Germany last autumn will sail on the same steamer as will the German charge d'affaires, completing the exit of German diplomats from the South American continent which have broken with Berlin.

WISCONSIN TO SEND SELECTS UNDER TWO NEW SPECIAL CALLS

[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 8.—Since the draft call for 10,077 men has been received and sent to Camp Grant, May 22, two special draft calls have intervened. The first call will send 500 men to camp from Wisconsin on May 17, and the next call will send five hundred men to the service on May 20. Both of these intervening calls are for specially trained men.

Gov. Philipp announced today that the following specially trained men from Wisconsin would be inducted into the service on May 17th:

One bargainer or boatman; 3 boiler makers; 100 electricians; 100 fitters, flagmen or conductors (railroad); six buglers; 55 carpenters and helpers (ship, bridge, house, general); joiners or pattern-makers; 1 cooper; 1 electrician; 10 engineers and firemen (locomotive); 6 foremen, construction (bridge building, earthwork, ship or railroad); 2 gas plant workers (necessity, hydrocarbon, power, illumination or compressor); 10 molders; 10 repairmen (car); 12 electricians and 1 telephone operator who can speak German.

Gov. Philipp received late Tuesday afternoon for five men asks for three air-brake inspectors; one locomotive hoist, and railroad repair man. These men will be inducted into the service on May 20. These specially trained men will not all be sent to one camp, but will be sent to different camps, where their service is specially considered. During the five days commencing with May 25, 10,000 men from Wisconsin will be sent to Camp Grant and on a call to training. Milwaukee and lakeshore counties furnish the largest percent of these men.

LARGE WINTER WHEAT CROP IS PREDICTED

[BY ASSOCIATED PRESS.]
Washington, May 8.—Winter wheat crops of 572,539,000 bushels was forecast today by the department of agriculture, making its estimate on conditions existing May 1 and on a call of the acreage remaining to be harvested. With continued favorable conditions the crop will be one of the largest three ever grown. The production of 1918 is estimated at 582,629,000 bushels. The area of winter wheat remaining to be harvested on May 1st was 36,392,000 acres or 13.7 percent of the total acreage planted last autumn. The condition of the crops was 86.4 percent of the normal, indicating a yield of approximately 15.7 bushels. Stocks of hay on farms May 1 are estimated at 11,069,000 tons. Average condition of pasture was 83.3 percent of the normal. Spring plowing was 77.6 percent completed and spring planting 60.8 percent.

BRITISH CANNOT BE DRIVEN FROM SEAS

[BY ASSOCIATED PRESS.]
Liverpool, May 8.—Many has made many mistakes during the war, but never made a greater one than in thinking she could end the war by driving British merchantmen from the seas, declared Vice Admiral Rosier Wenney, first lord of the admiralty, at the annual meeting of the Mercantile Marine association here today.

In a statement, Vice Admiral Sir David Beatty, commander of the fleet, wrote: "The officers and men of the grand fleet sent greetings to brother sailors in the mercantile navy and expressed admiration for their gallantry and devotion to duty. The important part they are playing in the great war cannot be over-estimated."

GENERAL COURT MARTIAL AT GOVERNOR'S ISLAND

[BY ASSOCIATED PRESS.]
Washington, May 8.—A general court martial composed of three major generals and a brigadier general was convened today at Governor's Island, New York, tomorrow for the trial of such persons as may be brought before it. It is assumed the case that necessitated the convening of the court is that of Brigadier General Arthur B. Donnelly of Missouri National Guards, charged with conduct unbecoming an officer. The court is headed by Major General Bell.

SHIPPING BOARD ASKS HUGE APPROPRIATION

[BY ASSOCIATED PRESS.]
Washington, May 8.—Estimates submitted to congress today by the shipping board called for an appropriation of \$22,235,000 for the construction of ships, authorized the urgent deficiency bill of 1917. The board has requested the appropriation of \$1,386,100,000 and for the purchasing and requisitioning of plants and material \$662,000,000.

STATEMENTS OF MAURICE RAISES ROW

FOURTH CHIEF DIRECTOR OF MILITARY OPERATIONS CAUSES SERIOUS POLITICAL SITUATION.

ARE AFTER THE CABINET

Former Premier Asquith and Followers Backing Maurice With Hopes Of Ousting Lloyd George.

[BY ASSOCIATED PRESS.]
London, May 8.—The action of General Maurice, former chief director of military operations at the war office in impugning the veracity of ministers of government, has created a serious political situation and one of importance to the cabinet existence, according to the views expressed by morning newspapers, who have supported the present administration rallied to the side of the cabinet or asserted openly that former Premier Asquith and his followers are back of General Maurice and the affair is a maneuver to oust the present cabinet and put in its place a cabinet headed by Mr. Asquith, Viscount Grey and Marquis of Lansdown.

Threats to the Government.

Thursday's debate in the House of Commons will be the most serious of any the government has had to face, involving the question of its continuance in power. The paper is convinced the minister acted in perfect good faith and made the statement which General Maurice contradicted and believed the minister's statement to be true. The Daily Telegraph believes the country has complete and justified confidence in the government.

The government issued a summons to its supporters requesting attendance at the house of commons Thursday. "The government is determined to maintain its position," said a statement which, if carried, will be a vote of censure to the government. "A division is absolutely certain," said the statement. "It is likely the premier will give the house the fullest possible information consistent with public safety, citing figures in proof of statements of the relative strength of the army in January, 1917, and January, 1918. As regards other matters involved in the statement of General Maurice, it is understood an examination of the facts will be made with both versions will be made."

THRESHING DIVISION ORGANIZED BY BOARD

[BY ASSOCIATED PRESS.]
Washington, May 8.—The saving of wheat and small grain during the establishment of a grain threshing division, created under the food administration, Captain J. P. Hoagland, director of the division, said. The division, which has been placed at the head of the new division. A threshing committee will be established in each county. The committee will be composed of the county food administrator, county agricultural agent, retired threshermen and representatives of local council of defense.

RAILROAD BROTHERHOOD MEETING IN CLEVELAND

[BY ASSOCIATED PRESS.]
Cleveland, O., May 8.—Warren B. Stone, grand chief of the Brotherhood of Locomotive Engineers, opened the second triennial convention of the engineers here this morning. Approximately 500 delegates from 16 states and Canada are in attendance. The convention is expected to last two weeks, but because of the war and in the interest of economy, the work will be made to speed up the work.

All the meetings will be held in the Engineers' Auditorium in the Brotherhood of Locomotive Engineers' building, a new story structure owned by the organization.

Grand Chief Stone's term of office expires this year and he will be a candidate for re-election. This convention is the last of the year. Three assistant grand chiefs also expire and their successors will be elected.

The part played by engineers behind the battle of the schools for government control of railroads during the war will be discussed by the convention.

RULES ANNOUNCED FOR FOURTH TRAINING CAMP

[BY ASSOCIATED PRESS.]
Washington, May 8.—Regulations announced by Adjutant General McCain governing admission to the fourth officers' training camp opening May 15, provides that men of draft age may enter the school if they are members of the reserve officers' training corps in accredited schools who either will complete their senior course this year or who have since January 1, 1917, not less than 300 hours of military instruction under an army officer. Graduates of educational institutions giving military instruction under an army officer may enter if they have not had less than one year's military training.

BERLIN ORDERED TO SEND WORKING SUITS

[BY ASSOCIATED PRESS.]
Amsterdam, May 8.—The City of Berlin has been ordered to produce forthwith 40,000 complete suits for war workers principally those engaged in railroad and farming work. It is to be a voluntary surrender against a small payment but warning is given that if the clothes are not forthcoming they will be taken by force. Monday is the first day for collection and deposit of the suits to be opened for the purpose. The result of the first day's contribution is said to warrant the confidence the required total will be reached easily.

Staple Food Prices Fixed By Committee

Fair retail prices, which
the consumer should pay
for staple foods in Janes-
ville and vicinity, have
been determined by the
local food committee,
which was recently ap-
pointed by Federal Food Admin-
istrator, F. L. Clements. Variation in retail
prices is due to difference in brand and
quality of goods. These prices are
based on a cash basis and a reduction
of 2% should be made on all purchases
for cash of one dollar or more.
Any suggestions or complaints, with
full particulars, should be addressed
to County Federal Food Administrator,
205 Jackson Bldg., city.
The list of prices is given below:

Article	Should Pay	Consumer
Wheat flour—1/2 bbl. sack	\$2.50	\$2.50
Gran. sugar, per lb.	.08 1/2	.08 1/2
Pure lard, bulk	.30	.30
Creamery butter, lb.	.45	.45
Old country butter, lb.	.45	.45
Best grade	.45	.45
Medium grade	.40	.40
Lower grade	.34	.34
Ham, whole, best grade, 10	34	34
12 lbs.	34	34
Second grade	30	30
12 to 14 lbs., one cent less	15	15
Beans, hand-picked, per lb.	.15	.15
Cracked corn, per lb.	.11 1/2	.11 1/2
Rice, best grade, lb.	.11 1/2	.11 1/2
Broken	.10	.10
Potatoes, best grade, bu.	.85	.85
Evaporated milk, 10	.07	.07
Same, larger	.10	.10
Cheddar, Swiss, full cream	.30	.30
Brick	.25	.25
Hominy grits	.09	.09
Colored Oats	.09	.09
Corn Meal, 10 lb. sacks	.55	.55
Barley Flour	.09	.09

For each pound of flour purchased,
a point of the following quantities
must be purchased at the same time:
Cornmeal, Cornstarch (edible),
Corn Flour, Hominy (not canned),
Corn Grits, Barley Flour, Rice, Rice
Flour, Oatmeal, Rolled Oats, Buck-
wheat flour, Potato flour, Sweet Po-
tato flour, Soybean flour, Tatarian
flour and meal.
For each pound of granular flour,
six tenths of a pound of substitutes
must be purchased.
The following are not substitutes
for consumers:
Sifted rice, Corn flakes, Health
bran, Flaked corn, Cream of barley,
Peanut flour, Rice polish, Flaked
oats, Rye crisp, Flaked rye or any
other rye product or any mixed cer-
eal product.
All cold storage goods should be
plainly marked by dealers, "Cold Stor-
age Goods."
Sales on sugar to ordinary city fam-
ilies should be restricted to five
pound lots and to rural trade, to
five to ten pound lots.
Sales on flour should be similarly
restricted to one-eighth barrel lots to
city customers, and one-fourth barrel
lots to rural trade.
Other prices will follow later.
USE POTATOES AND SAVE THE
WHEAT.

RED CROSS CIRCLES MEET ON WEDNESDAY

The Red Cross circles of St. Peter's
church met at the home of the
leaders, Mrs. J. H. Larson on
Cherry street, Mrs. Fred Bauman,
South Main and Mrs. J. Laursen on
Milton avenue—every Wednesday af-
ternoon, and evening working mostly
on surgical shirts and refugee cloth-
ing, and have been most successful.
Home have already put in enough
hours to get their aprons and cross
and will now turn their efforts to
the quilt for garments being
no urgent, they are giving all the
spare time possible. All are invited
to help the good cause along.

On sale at St. Joseph's Convent,
Identification cards and pocket folders
for soldiers and sailors. Also nume-
rous religious articles.

GINS IMMEDIATELY.

APPOINT THREE WOMEN

Mrs. H. H. Faust, Mrs. O. D. Antisdal
and Mrs. F. J. Lowth, Chosen to
Take Charge of the Work in
This District of the County.

"SAVE 100,000 BABIES. GET A
SQUARE DEAL FOR CHILDREN."
Will be slogan of the children's bureau
in the United States Department of
Labor during the second year of the
war. A national campaign has been
launched to save the lives of at least
100,000 children six years of age
who die annually in the United
States. In this city, Mrs. H. H. Faust
has been placed in charge of the
work, while in the county Mrs. O. D.
Antisdal and Mrs. F. J. Lowth have
been appointed to work.

This great movement is said by
child experts and by other authorities
to be basic in its far-reaching effect
in securing to the nation better and
healthier children and therefore a
finer breed of American people. Careful
study of the available sources of
information about child mortality in
the principal warring countries re-
veals striking developments of work
to save the lives and health of
mothers and babies and to maintain
family life and home care of children.
For example, England during the second
year of the war, reduced her in-
fant mortality rate to the lowest point
in her history. The new war-orphan
laws of France and Italy make special
provision for children whose homes
have been broken up by the casual-
ties of war.

In France, the minister of public in-
struction has said: "The question of
school attendance was never more
pressing; never was the diligence of
our pupils more necessary; but never
were there more obstacles in its way.
Doubts will be tomorrow the task of
the pupils of today; twice as intense,
therefore, should be their preparation
for this task and it is precisely at this
moment that in the absence of their mo-
bilized fathers, they run the risk of
escaping all educational influence.
Therefore, more than in times of peace,
we must fight now against the obsta-
cles in the way of school attend-
ance."
If argument were needed for greater
attention to the physical care of
children in the United States, it is
found in the result of the first draft
with its rejection of one-third of the
men as not physically sound. The re-
sults of the physical examinations for
proportion dating back to infancy and
early childhood which could have been
removed had they been recognized
and treated properly at an earlier date.
The National Association of Comm-
ercial Secretaries suggested for
Children's Year will not require
many. Physicians and nurses and
trained workers in other fields have
given generously of their time and
services, and much assistance can be
given by untrained volunteers.
The first community
activity will be a national health
survey of the children of the United
States which will be conducted in the
next few months. Weight and height
are a rough index of the health of
growing children. When these are
checked and found to be seriously below
the average, whether in individual cases or
in certain sections of the community, the
test will be followed by a health sur-
vey of the children who cannot be
weighed and measured in their own
homes by the family physician. The
work is to be done in intimate effort
with the health department, day
nurseries, and other appointed places.
An special appeal is made to every-
one who has a set of bathroom scales
to lend them for the cause.

The complete registration of births,
parental instruction for every
mother and adequate care by doctor
and nurses at confinement and after-
ward.
Weighing and measuring of all chil-
dren under six years of age.
A campaign of public policy and educa-
tion in child hygiene.
Establishment of children's confer-
ences where well babies can be taken
periodically to the health department
and where the children who are ex-
amined and found to be in need of
care can be given medical attention.

Placing of public health nurses
throughout the state.
The guarding of the milk supply
that every child may have his share
of clean pure milk.
How mothers may be enabled to
care for their own children at home
and win all the more sufficient for
their needs instead of going out to help
in earning their children's daily bread;
how information about the best mod-
ern standards of housekeeping, and
how to care for older children may
be popularized and made available for
all—the study of these problems in
their practical bearing is the aim of
the work suggested under the slogan
"Home care and income."

For the saving of 100,000 babies' lives this
work is of great importance.
The burden of family support
should not be placed upon young chil-
dren. In some ways the country has
started well. The federal child-labor
law became effective on September 1,
1917, and outside of one North Caro-
lina district, in which a test case was
raised, it is being enforced without
exceptions. The war and navy de-
partments are requiring that the
standards of the federal law be en-
forced in all their reservation camps
for young men. Communities should be
on their guard against permitting special
war-time exemptions from state child-
labor and school-attendance laws, and
they should develop constructive
measures to meet the conditions which
lead to the employment of children.
The maintenance and development
of recreation for children is especially
important in war time there is the
danger of overwork and of the break-
ing down of home life. The neglect of
children's recreation is frequently
cited by authorities in England and on
the continent as a cause of delin-
quency. If the preventable wastage
of other countries is to be avoided by
the United States every effort to pro-
mote recreation for children and
young people should have special at-
tention during Children's Year.
There are the children with special
needs. There are many down-
cast children who are in no wise differ-

from other children except that un-
fortunate circumstances have thrown
them upon the community for support
and nurture. There are besides, the
handicapped children, who, by reason
of physical or mental defects, can not
respond to the training offered in the
ordinary school, or whose inferiority
in the institutional care. The delin-
quent children are, again, not very
different from other children. With
proper supervision and guidance they
may frequently become good citizens,
without wise action by the community
they drift into a life of crime.

GET TOGETHER DINNER AT Y. M. C. A. THURSDAY MILWAUKEE MAN HERE

William George Bruce Will Give Ad-
dress at Banquet Tomorrow Even-
ing—Rev. Mahoney Will
Speak.

The attention of Janesville business
and professional men is being cen-
tered upon the Get-Together Dinner
which is to be given under the direc-
tion of the Chamber of Commerce
Campaign committee at seven o'clock
A. tomorrow evening at seven o'clock.
It is doubtful if a greater authority
on matters pertaining to business-
men's organizations has ever been
brought to Janesville than William
George Bruce, who is to be the main
speaker of the evening.

Mr. Bruce is the founder of the
School Board Journal, one of the great
educational journals of the country.
He is the author of text-books on school
administration, and the writer of
many treatises on taxation, industrial

WILLIAM GEORGE BRUCE
insurance and water navigation. In
recent years his writings and lectures
on matters pertaining to commercial
organization work have received much
attention.

Four years ago he was president of
the Central Association of Commercial
Secretaries. Two years later he was
honored by being made president of
the National Association of Comm-
ercial Secretaries. At the present time
he is serving as a member of the Ad-
visory Board of the Secretary of Sci-
ence Bureau, maintained by the Cham-
ber of Commerce of the United States,
which has headquarters in Washing-
ton.

Three years ago Mr. Bruce assumed
charge of the Milwaukee Association
of Commerce and from a small and
weak organization has built it into one
of the most efficient commercial or-
ganizations in the United States. It is now
known as the Merchants' and Manu-
facturers' Association of Milwaukee.
It maintains a large, convenient ex-
change and investigation bureau, all of which
are performing splendid services for
the city.

Mr. Bruce's services as a public
speaker on the local and purpose
of commercial bodies and the essen-
tials of community promotion are con-
stantly in demand. No man in the
United States has given greater study
to the subject or is better informed on
the possibilities of collective com-
munity service.
For the past six months Mr. Bruce
has been so occupied with the local
duties that he has placed upon his
office that he has done practically
no speaking outside of Milwaukee,
hence Janesville may count herself
especially fortunate in having him able
to secure his services at this time.
Reservations for the Bruce dinner
are coming in rapidly at Chamber of
Commerce headquarters and a large
attendance is anticipated by the com-
mittee.
Mr. G. Jeffris will act as presiding
officer for the evening and Rev. William
Mahoney will speak. Good eats, good
music and good speeches are all to be
"sold" for the cause.
Representatives of the American
City Bureau, who are in the city or-
ganizing a Chamber of Commerce, at
the request of local men who believe
in the future of Janesville, announced
today that women who are interested
in civic affairs will be welcome at the
dinner to be given in the Y. M. C. A.
banquet hall tomorrow night. With
Mr. Mahoney and William
George Bruce of Milwaukee, as speak-
ers.

It is also announced that the dinner
is by no means an exclusive affair.
Business suits will be worn and any-
one wishing to attend, whose invita-
tion may not have reached them by
mail, will be welcome. Reservations
may be made by calling on phone,
Bell 22, or Rock County 123.

FAREWELL PARTY GIVEN FOR JOSEPH LAWRENCE

Joseph Lawrence, who left with the
last contingent of selected men for
Columbus Barracks, Ohio, was given
a farewell party at the Y. M. C. A. Thursday
evening by the Brotherhood of Rail-
way Carmen of America.
A very enjoyable evening was spent
by all those present. Present Ernest
Blum gave a very interesting talk
during the evening and the young man
was presented with a wrist watch.

YOUTH TO BE TAKEN TO WAUKESHA ON THURSDAY

Earl Olson, the youth who was sen-
tenced to the industrial school at
Waukesha by Judge Maxfield yester-
day, will be taken to Waukesha to-
morrow morning. His case was
taken from the docket of Arthur Har-
ris at the County club.

SOUTHERN WISCONSIN PYTHIANS GATHER IN BIG DRILL CONTEST

Seven K. of P. Drill Teams Compete
at the Armory—Patriotic Pro-
gram Will Be Given
This Evening.

Pythians from practically every city
in southern Wisconsin were in the city
today to attend the annual third rank
work contest of the Southern Wis-
consin League of Knights of Pythias.
The other two drill teams, the members
were held early this afternoon in the
local hall.
At two o'clock this afternoon the
Brotherhood drill team took the floor
and went through their various move-
ments. The Evansville team was
scheduled to perform at three-thirty,
while the Beloit squad will execute its
movements beginning at five o'clock.
The other two drill teams entered in
the competitive meet, Edgerton and
Janesville, will perform this evening
after the patriotic program in the
armory.

The armory has been tastefully
decorated for this evening's entertain-
ment in the national and lodge colors
and presents a beautiful appearance.
Dr. G. B. Thuermer, chairman of the
committee, in charge of the contest
and program, has arranged an enter-
tainment which promises to be
most enjoyable. The number of Pythians,
who with their guests will be present
this evening. The program, which
will begin at 7:30, follows:

Overture—K. of P. orchestra of
Beloit.
"America"—Orchestra and assem-
bly.
Vocal solo—Miss McCulloch.
Selection—Orchestra.
Reading—Miss Catherine Scholler.
Duet—Miss McCulloch, and Arthur
Schoff.
"Star Spangled Banner"—Orches-
tra and assembly.
The Edgerton drill team will take
the floor immediately after the pro-
gram, while the Janesville drill
squad will demonstrate its ability af-
ter Edgerton's exhibition.

TODAY'S MARKETS.

TELEPHONE MARKET SERVICE.
Our subscribers who are interested
in the livestock market may secure
quotations daily between the hours of
1:00 and 2:30, by calling the Gazette
Office, No. 77, either phone.

Hogs—Receipts 23,000; market
strong; bulk of sales 17.70 to 18.00;
light 17.80 to 17.15; mixed 17.40 to
18.15; heavy 16.70 to 18.00; rough
15.70 to 17.00; pigs 14.75 to 15.75.
Cattle—Receipts 8,000; market
firm; native beef steers 10.00 to 17.00;
stockers and feeders 8.30 to 12.80;
cows and heifers 6.80 to 14.00; calves
8.00 to 12.25.
Sheep—Receipts 9,000; market
steady; wethers 12.75 to 16.75; lambs,
native 15.50 to 21.00.

Butter—Lower; receipts 2,406 tubs;
creamery 14.45 to 14.75; seconds 13.50 to
14.10 to 14.40.
Cheese—Steady; Sept.-Oct. dairies
26 to 28; long horns 24 to 25; young
Americas 25 to 26; Swiss 21 to 22;
22 to 23; horns 21 to 22; young
Americas 21 to 22; twins 24 to 25.
Eggs—Unchanged; 26.50 to 27.00 cases.
Potatoes—Unchanged; 10 to 12; car-
rots—Lower; fowls 24 to 25; roos-
ters 18 to 19.
Corn—May; Opening 1.27 1/2; high
1.27 1/2; closing 1.27 1/2; July: Open-
ing 1.45 1/2; high 1.47; low 1.44 1/2;
closing 1.46.
Oats—May; Opening 73 1/2; high 74
1/2; low 73 1/2; closing 73 1/2; July: Op-
ening 58 1/2; high 67 1/2; low 56 1/2; closing
67 1/2.

Cash Market.
Corn—No. 2 yellow nominal; No. 3
yellow 1.57 to 1.62; No. 4 yellow 1.52 to
1.57; white 74 1/2 to 77; standard
and 75 1/2 to 77.
Rye—No. 2 nominal.
Barley—1.15 to 1.17.
Timothy—1.50 to 1.55.
Clover—1.18 to 1.20.
Lard—22.54.
Ribs—22.12 to 23.00.

Chicago Markets.
Chicago, May 8.—Hog prices yester-
day were strong to 15c higher
with most grades showing an advance of 10c
over Monday's figures. Tops
reached \$18.00 for the first time in
several weeks. The bulk sold at
\$17.80 to \$17.90. There was a good run
of pigs, but they were a brisk in-
quiry at strong to slightly higher
prices, topping at \$17.25.
Beef steers were steady to 25c
higher. Trade was uneven and
ceils of 15,000 cleared slowly. Cows
and heifers showed little actual
change. Best steers offered cleared
at \$17.50. Calves sold readily at
strong prices, topping at \$14.25 for
prime veals.

Sheep and yearlings were steady to
weak, while lambs sold mostly 15c
to 25c lower. Receipts were 11,000. De-
mand was slow. Best Colorado wool
and skins topped the market at \$21.00. Clipped
wethers at \$17.00. Clipped
ewe lambs were sold to the south park
board for grazing in Washington park
at \$17.25.

Hog leases for the day: Armour
& Co., 200; Swift & Co., 3,600; Ham-
mond, 1,500; Morris & Co., 1,600;
Wilson & Co., 2,500; Boyd-Latham,
1,200; Western
1,700; Robert & Oake, 900; Miller
& Hart, 800; Independent, 500; Bren-
nan, 1,000; Agar, 400; butchers, 700;
shippers, 5,000; total, 22,500; left
over, 4,500.

Bulk of sales \$17.30 to 17.90
Common to good mixed 16.90 to 17.30
Fair to fancy medium
weights 17.25 to 17.40
Fair to fancy heavy
weights 17.30 to 17.85
Good to select butchers 17.60 to 18.00
Common to good lights 16.75 to 17.75
Stags 9.25 to 11.75
Pigs 13.50 to 17.00
Cattle.
Heef steers, choice to
prime 16.00 to 17.50
Beef steers, good to
Beef steers, fair to good 14.00 to 15.00
Beef steers, inferior to
rough 10.50 to 11.50
Yearlings 11.00 to 16.40
Cows, fair to good 8.10 to 11.00
Heifers, fair to select 7.50 to 14.00
Canners and cutters 7.50 to 14.00
Good to choice vealers 11.50 to 14.25
Sheep.
Short wethers 12.00 to 13.85
Yearlings 16.00 to 18.75
Shorn yearlings 15.50 to 16.75
Shorn ewes 20.00 to 21.00
Colorado lambs 19.50 to 21.00
Shorn lambs 15.50 to 17.00

JANESVILLE MARKETS.

GRAIN MARKET.
Prices quoted below are for large
quantities as sold to farmers. When
purchased in small lots the price is
somewhat higher than quoted
because of the expense of handling.

feeding apples, \$10 to 12c; cooking ap-
ples, 6c to 8c; oranges 65 to 70c per doz.;
limes, 40c per doz.; grape fruit,
10 to 12c each; mixed nuts, 75c per
pound; coconuts, 10 to 12c; bananas,
25 to 30c per doz.; strawberries 15c
to 20c.

Vegetables—Dry onions, 5c pound;
green peppers, 8c; celery 10 cents;
parsley 5 cents; leaf lettuce 5 cents;
head lettuce, 12 1/2c; beets, 5c; cucum-
bers, 15c; carrots, 5c bunch; new
cabbage 8c lb.; turnips 5c bush;
10 to 12 lb. shallots 5c; tomatoes 25c;
Spanish onions, 10c; cauliflower, 15c;
25c; onions, 5c; spinach, 12 1/2c; rad-
ishes, 8c; green onions, 5c; asparagus,
15c; beans, 25c; peas, 25c; pumpkin, 5c
bunch; salady, 8c bunch; string beans,
25c.

Potatoes—25c peck; new 6c lb.
Horn—\$2.50 to 3.00.
Eggs—25c.
Butter—47c.
Lard—33c.
Oleomargarine—34c.

County War Fund.
Rhinelander, May 8.—The Oneida
county patriotic war fund will be in-
augurated here May 13. The fund
has been designed to take care of all
war funds and do away with in-
dividual campaigns such as have oc-

curred since America entered the war.
Under the rule of the fund members
of the council of defense serve as di-
rectors and the people of the county
will devote "one hour a week to war
relief." It is believed one hour a
week of the incomes of the people in
the county will provide enough
money for any campaign which may
be started.

Leaves Big Estate.
Fond du Lac, May 8.—Henry Boyle,
who died recently in Florida, left an
estate valued at \$1,500,000, according
to his will, filed for probate here. A
son, Francis, will receive one thou-
sand dollars from the estate, the re-
mainder of it going to the widow who
is also made executrix of the estate.

Chiropractic--Facts That You Should Know

The medical man tells me that Germs cause diseases but the Chiro-
practor says that the Vertebrae which are out of place cause disease.
Whom am I to believe? In replying this very natural question let me say
that I do not want you to believe—I want you to investigate—then you will
KNOW. Where there is no food there is no life. The smallest form of life
can no more exist than the largest without food. We have no vegetation
on the desert because of the need of plant food. You dispose of your gar-
bage to prevent flies. You know that if there is nothing for them to eat,
they will not bother you. Germs are live things—they must eat. They ex-
ist on dead tissue and such morbid matter as exists in your body. If there
is no food in your body for them, they will not exist there. This explains
why one person will have tuberculosis, another typhoid fever and still an-
other scarlet fever, etc. Each one has within himself the particular kind
of food (waste matter, etc.) to the special liking of the different kinds of
germs, the toxins of which produce the symptoms of their disease. Every
tissue cell functions in a process known as metabolism—a building up,
a tearing down and eliminating process. So long as the nerve force is nor-
mal, this process is normal and leaves no waste matter for germs (scaven-
gers) to feed on. This is immunity from Disease. To sum up: Impaired
nerve force, poor cell action, leaving waste that germs feed and multiply
on, the toxin in which gives rise to groups of symptoms known as Typhoid
Fever, Tuberculosis, etc. CHIROPRACTICALLY we do not deal with any
EFFECT (GERMS). WE GO TO THE STARTING POINT, AT THE
ROOT, AT THE VERY BEGINNING—THE INTERRUPTED NERVE
FORCE, THAT IN A VERY LARGE PERCENTAGE OF CASES, IS
CAUSED BY SUBLUXATED VERTEBRAE. IF YOU WOULD IN-
CREASE YOUR POWERS OF RESISTANCE TO DISEASE TAKE
CHIROPRACTIC ADJUSTMENTS. Consultation and Spinal Analysis

**Stunning New Suits at Extremely
Low Prices--A Large
Collection Specially
Priced at \$18.00,
\$22.50 and \$25.00**

Several new shipments containing suits purchased at special prices,
have arrived during the past few days and we are therefore enabled to of-
fer our patrons unusual values this week.

You cannot appreciate the splendid values, however, until you see the
suits themselves, and note the quality of the materials and the character of
the workmanship.

The Smartest Styles of the season are represented in this collection,
which we offer special this week at \$18.00, \$22.50 and \$25.0

Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: (1) I am anxious to have you answer a question for me that I have asked a number of intelligent men and women for the past ten years. I have never had any man or woman answer my question as I think it should be.

Why is it girls and women are such crazy cranks over just any man that happens to put on a uniform of any kind? When I say just any man, I mean a rough character that girls will keep company with in their home counties and states. These characters are unscrupulous in their home counties. When one goes away from home he secures a flagman's place or a policeman, or a city fireman or city police force, secure a run on a street, play in a city band, or above all, become a soldier boy. We have fine boys and men holding positions in all these places I mention, but they are not all good citizens, and a girl does not stop to think whether he is a good man or not—just of his uniform.

(2) Almost every day girls are getting married to soldiers and when the soldier leaves for camp, then in a few days leaves for France, and the young wife will very likely never hear of him again. Some say the girl marries the soldier to get his insurance. This won't do. A soldier can have his insurance changed if he wishes. Suppose the soldier is missing and one never knows what has become of him. What about the widow then? Do you think our courts would grant a divorce to a widow when she did not know whether her husband is living or dead?

don't believe the courts will do this. Then I think the girl has sacrificed her life just to get to marry a soldier boy. I think it time girls were using their heads and staying out of life-long troubles.

(3) Girls love romance and know. There is a touch of romance connected with a uniform—it is unusual. The fireman, policeman and soldier suggest courage and heroism and the bandman suggests music and the artistic. In many cases the roughest characters live up to what is expected of them in uniform and girls do not have an opportunity to see their other side.

(4) I am sure that not one girl in a hundred marries for a pension. Nowadays girls can support themselves and when they marry soldiers they fully expect to for a long time at least. They certainly face life bravely when they know that their husbands may return in a pension and will be able to live on comfortably. It is love and romance that makes them marry. The soldier wants the home life before he goes away, and the girl in her love for him consents to marry. Of course there are many hasty marriages now which will be regretted later. If a soldier does not return home in a reasonable length of time and nothing has been heard of him the state will pronounce his wife legally free.

Dear Mrs. Thompson: I am a girl eighteen years old. I am engaged to a boy and I have learned to love another who is in France. Would you break the engagement now or wait until after the war and then see which one I think the most of?

Break the engagement now. You are too young to be married. When the war is over you will probably have another one you have not yet met.

Dear Mrs. Thompson: I am going to get a new waist to wear with my dress suit and I want a very nice waist. I am a brunette and my suit is brown. What color would you suggest for the waist?

You ought to look very well in yellow.

HEALTH TALKS

BY WILLIAM BRADY, M. D.

LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

OUR READERS' VIEWS

A thoughtful reader writes: "You say the cause of cancer is unknown. A celebrated army surgeon states that the cause of cancer in 30 per cent of all cases is chronic ulcer of the stomach. He explains that a chronic ulcer in man than in woman because a man takes his food hotter, gets served first and eats while the housewife pours the tea and serves the others at the table."

My own conclusion is that cancer comes from lead poisoning mostly from eating foods preserved in tin cans. We have become a nation of canned food eaters. Even our hotels and restaurants make most of their pies and the like from preserves put up in one gallon tin cans."

The correspondent then cites several instances of acute illness which he attributes to lead poisoning from eating tinned food. He then concludes: "I take it the lead in the ulcer or sore spot anywhere) a little at a time, till the dam bursts and trouble begins. Dear doctor, explain my letter, but you are now piling on property, and it some of your readers come back at you just overlook it."

A great many instances of cancer of the stomach seem to be due to the action of the "celebrated army surgeon." Cancer of the stomach is the most frequent situation in men. Cancer of the stomach, according to surgeons of large clinical experience, very often develops in the site of an old stomach ulcer which may, or may not, have been treated by surgery. It is not a new disease. Surgeons find this sequence of events so frequently in their explanations that they feel it is an added incentive for operating in all cases of stomach or gastric ulcer which do not promptly respond to physiological rest of the stomach and medicinal or dietetic treatment.

As for the correspondent that it is by no means as general as he imagines. The cases he cited in his letter did not at all resemble lead poisoning. There is today practically no danger of lead poisoning or any other kind of poisoning from canned food or

food preserved in tin. Certainly fresh food is always preferable, but the use of canned food is all right. If the army surgeon's idea about the man covering is correct, it should be a less in table manners for the man.

QUESTIONS AND ANSWERS. "The Wassermann Test. I was greatly interested in a recent article in which you indicated that the Wassermann test is not a sure test of syphilis. Will you kindly tell me what is a sure test? I have heard of the Wassermann test made, all negative. My doctor thinks I am married, and that I am not liable to have venereal disease. (C. J. H.)

ANSWER—The Wassermann test may react positively in conditions other than syphilis. It is only a chemical test. It may react negatively notwithstanding the presence of undetectable syphilis. It is rather a confirmatory test, corroborating your physician's tentative opinion is an unquestionable case. Your physician's opinion and advice would be better than any number of tests for syphilis.

Test for Pimples. I should like to know why yeast wouldn't be a good remedy for ulcer of the stomach, since it cures boils and pimples. Would it be likely to do any harm in such a case? (Mrs. R. B.)

ANSWER—It would probably do no harm, but it is doubtful whether it would do any good.

Whooping Cough Contagious Before the Whoop. Our little girl, aged five, played with a neighbor's boy who, they think, is coming down with whooping cough, though he doesn't yet show this was eight days ago. Is there any danger? (Mrs. J. J.)

ANSWER—Yes, whooping cough is most catching before the whoop begins. Your little girl, if infected, may develop the disease within ten days. Ask your doctor to administer the whooping cough bacteria (vaccine) at once as a preventive.

Blood Tests of Various Kinds. Or what is a blood test? From what part of body is blood drawn? (Mrs. J. S.)

ANSWER—Blood tests of various kinds may be drawn from the lobe of the ear, from a finger from a vein in the arm. Various tests are made in such a case—more blood counts, for the diagnosis of anemia or of leucocytosis (suggesting disease or inflammation), or for bacteriological culture, or for acidosis, or for syphilis.

What a Fine Tribute! Think of Being Able to Argue That Way. Think of having so sterling a character that the fact that you believe in a cause is an argument for that cause! That means that you inspire trust.

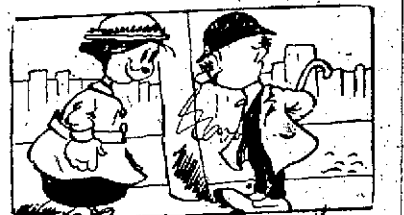

That people do not have to discount the value of your opinion by any taint of prejudice or sentimentality or hysteria.

The Easiest Way To End Dandruff. There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

RIGHT THERE. Mother—Professor, is my son a deep student? Professor—None deeper, ma'am; he's always at the bottom.

Sell your real estate, through the Gazette classified ads. The cost is small and the results great.

EVERYDAY ETIQUETTE

A gentleman will never monopolize the conversation. This is a very serious fault in a man.

(Questions answered by Marie Riley.) (Miss Riley will answer in this column all questions on matters of etiquette addressed to her in care of this paper. If a personal answer is desired enclose a three-cent stamp.) PERSONAL: Yes, a marriage license has to be published. In some states both parties must apply in person for the license; in others the man swears to the age of both contracting parties and applies for the license in person.

K. M.: When escorting a young woman friend to a dance, it is proper for you to ask for at least four out of every ten dances and to see that the remainder of her card is filled.

Household Hints

MENU HINT

Breakfast: Shredded Cornflakes, Eggs Cooked in Shell, Coffee.

Luncheon: Scalloped Rice with Tomato, Cornbread, Butter.

Dinner: Baked Flank Steak, Stuffed Potatoes, Creamed Carrots and Peas, Dressed Lettuce, Pineapple with Whipped Cream.

WAYS TO SERVE FISH. Roe Cake—Mix the roe with an equal amount of bread crumbs or cracker dust and one beaten egg. Season to taste and form into small round cakes and fry. Stewed tomatoes go well with this dish.

A Luncheon Dish—Heat the roe thoroughly and pour over it a sauce made of one cupful of tomato juice, one tablespoonful of butter and one tablespoonful of flour. Cook butter and flour together, add tomato juice and cook until it thickens. Season to taste.

Old-Fashioned Codfish Dinner—Strip the fish into small pieces or flakes. Put in a saucepan and more salt cover with cold water. Let it come just to a boil and then turn off the water. Again cover with cold water and let come to a boil. Much boiling will make the fish tough. This should be served with pork fat and scraps made by cutting salt pork into tiny dice and frying until crisp, using both the scraps and the fat. Beat butter from the gravy bowl. If preferred the plain white sauce may be used instead of the pork fat. With this dinner boiled potatoes and beans would make a desirable addition.

Broiled Salt Cod—After being freshened, strip the cod into long flakes, which should be then be broiled over hot coals. Spread with butter and serve at once.

Creamed Codfish—Strip the cod into small pieces. Place in cold water and let it come to a boil. Drain off the water and add a pint or more of milk to the first, according to the amount of cod used. Boil slowly for fifteen minutes, then add butter, a little pepper and a thickening of one heaping tablespoonful of flour in enough cold water to make a cream. Stir well and cook five minutes longer. Add one well-beaten egg.

Fillet of Mackerel—These are to be served as a first course without any preparation whatever. Serve with sliced lemon as an appetizer or relish, with bread and butter or crackers.

Any Mackerel—You will find these very nice as a change from sardines, as they are very delicate and have an appetizing flavor. They should be served with sliced lemon with crackers or toast. They should be served cold.

Funny Fish Savory—One small can of tunny fish, one pint of milk, one small can of pimientos, one small green pepper, two tablespoonfuls of butter, two tablespoonfuls of flour, salt, pepper and paprika to taste. Blend the butter and flour well together in a saucepan over the fire, then add the milk and stir well until smooth, then add the pimientos and green pepper cut fine and cook for three minutes, stirring all the time. Put in the tunny fish and the seasonings and when thoroughly hot serve on squares of toast.

Maryland Crab Meat—Make a rich cream sauce, add one cup crab meat, two hard-boiled eggs chopped fine, season with salt and pepper and when ready to serve add two tablespoonfuls Worcestershire sauce. Serve with or on toast.

FASHION HINT. The hat above is one of the interesting novelties of the season. It is made of brown Milanese straw and trimmed with white satin ribbons and the popular knitting needles.

Americream Will Improve Your Complexion

The astringent bleaching properties of abuminated lemons blended with almonds makes Americream the most perfect of all complexion creams.

Apply a small portion before and after exposure and just before retiring. It will give your complexion the clear colorful beauty you want so much. Try it today. 35c at all first class drug stores. J. P. Baker, Smith Drug Co., Red Cross Drug Co.

Observations of a War Horse

My Dear Niece: Does marriage increase or decrease a girl's value as a moving picture actress?

I asked this question of the publicity man when he and I were having a heart-to-heart talk—or a head-to-head talk as you prefer—about the intricacies of this vast modern industry.

I also made inquiries touching jealous husbands.

He passed over the last question lightly, assuring me that the director never met masters in handling recalcitrant husbands.

"Husbands are all right," was the way he put it, "but we have to keep them out of the way in big scenes. If a husband is himself an actor he is likely to be peeved if he is not cast to play the lover to his own wife. We had one husband out here of late who almost choked his finger balls off when his wife was doing a big scene with another of our stars."

"Why didn't you cast him for the part and save the actor and tear on finger nails and disposition?"

"Why didn't we? Several reasons. To begin with one might big one, he was too used to his wife. Oh, yes, he loves her all right; but a fellow who was less accustomed to her beauty don't mind telling you in confidence that the same leading man did a darn sight better job of love-making when he was the fire of jealousy in the husband's eye. We like the husband well enough, but picture making is a commercial proposition and we are playing for the best results."

"A little jealousy doesn't hurt any husband. It shows him hot off the bat how bad it would hurt to lose his wife, and so conserves his imagination for use in his work and clinches his wife's hold on his affections at the same time."

"But," I suggested tentatively, "might not some husbands get excited enough to fight?"

"Sure they might. We'd film the fight for use in a big scene. No emotion is permitted to go to waste around this shop."

"Speaking of emotions—" I began.

"Oh, yes, you want to know the effect of marriage on a movie actress's career. It helps. A married woman has a greater range of emotions than a single one, and greater freedom in expressing them. No matter how much intuitive knowledge a single girl may have of life, she is always under restraint in expressing herself. She fears the gossip and the putrid imagination and she fears the question that seems to stare on its hind legs in every Parisian mind: 'How did she get that knowledge?'"

"So actresses marry as soon as they can get it over with. It relieves 'em of a lot of worry and increases their value to the company. What is more, they stay married about as well as bankers' wives, society women, and professional women the world over. It is not uncommon for a husband to form a moving picture producing company and star his own wife, taking her away from the company that has given her her start. Or the pair will become co-stars and make a fine business for themselves. Many of the picture people have lovely homes, and love them so much that they stay in them whenever they are off duty."

This letter ought to give you subject matter for a nice little talk to some woman's club, as the impression seems to be seeping through small towns throughout this land that moving picture people spend all their spare time in divorce courts. That is because the newspapers give publicity to divorces, which have dramatic value, and are silent about domesticity, which is too peaceful to be interesting and too happy to be dramatic."

I must say good-by now and go out with one of the 'movie' stars who is going to raise money for the Red Cross by riding through the parks on a pinto pony and passing his hat. He is a 'wild west hero,' and nobody will refuse when he asks. I just happen to be one of the committee appointed to attend to his pilgrimage of collection."

Good-by for today. Lovingly, your auntie, THE WAR HORSE.

The Daily Novelette

GETTING BACK.

(Synopsis of preceding chapters: Battersby Bottles is in love with Ammonia Laybell and is also engaged to her. They also both have a friend, Charlie Chuck, who is also in love with Ammonia. One day Charlie in his Amers, to take a ride in his 14 h. p. Pumpkernitz 1906 model, and Ammonia doesn't say "No." When Battersby calls on Ammonia with the marriage license, he sees her stepping out of the Pumpkernitz in joyous abandon and he is silly enough to be wildly jealous. If Charlie doesn't speed away in time, there's no telling what might happen. Anyhow, scowling angrily, Battersby Bottles pushes open the door, shoves Ammonia in and slams the door shut behind him. Bravely snatching her by the arm, he demands an explanation of her unseemly behavior. Surprised at his harsh manner, she tells him brokenly that she is engaged to Charlie and his Pumpkernitz, and that theirs is all off. At this, Battersby dances around awhile in a great rage, picks up his hat, puts it on takes it off, throws it down, picks up his rubbers, puts them on his head, takes them off, throws them down, snatches up his umbrella, opens it up, rains tears of anger upon it, puts it down. Meanwhile, Ammonia hides behind a flowerpot.)

XXXIV. "Oh, how can I ever get even with that wife-snatcher Charlie? He wallops me with his fists in his den, and he opened a book on 'Methods of Revenge,' one on 'Traceless Poisons' and one 'Dentless Stabs,' but found nothing horrible enough in any of them."

Suddenly taking out his wallet, Battersby extracted two of last year's July 8th theatre tickets for the Fosse Show at the Spool Garden, and then

mailed them to Charlie. XXXV. On the evening of July 8th, Battersby hid behind a poster in front of the Spool Garden and watched Charlie and Ammonia pass into the theatre and a second later he watched them both thrown out.

And Oh Joy! Ammonia was angry for she slipped one way and Charlie hobbled the other.

"Ar-r-r-r! Sweet Revenge—vengeance!" Battersby gurgled.

DAUGHTERS OF CONFEDERACY ARE IN SESSION TODAY. Nashville, Tenn., May 8.—The Tennessee division of the United Daughters of the Confederacy opened their annual convention here today. The convention will continue for three days. Many prominent women of the state are here. Plans are to be made whereby the organization will assist with the war programme.

This newspaper is a member of the Wisconsin Patriotic Press Association and pledges its uncompromising loyalty to our Government in this war.

KEEP SMILING.

The Liberty bond drive is over. Rock county went across the line with a win, and the next thing is to wake up on these "war gardens" and "wheat acreage." Plant your wheat, plant your corn, plant your soybeans, and plant your patriotism. The government has now issued a call for the excess of flour in individual homes and demanded it be returned for redistribution until the new crop is harvested. Really, this looks like a move to actually restrict the food supply for the individual, and if properly enforced will work wonders in the long run. The national housewife who purchased a dozen or more sacks of white flour before it went off the market, from this on that grocer, because they had money, will have to disgorge it. Favorites are not to be played. Apparently this difficult task is up to the representative of the state food conservation bureau and it is a thankless task to say the least. Meanwhile keep smiling and make your individual report. "Pack your troubles in the old kit bag and smile! smile! smile!"

ON THE COURT HOUSE.

Recently the following communication was received in the Gazette office which can not be answered off-hand and perhaps some member of the county board, or county officer, can do so.

To the Editor:
I see a flagstaff on the county building. I remember distinctly that someone climbed to its top at expense to the county and placed the ropes there to haul a flag up. Where is the flag?

"I have looked in vain for it. One hangs out in front of the entrance, but one does not fly over the top of the building."

"Taking draft, voluntary enlistments in army and navy and everything into consideration there are probably considerably more than a thousand Rock county boys in the government service at the present time. Why not fly a flag every day over our county building in their honor?"

"If the county is bankrupt and needs money to buy a flag, let the public know and they will find loyal citizens who will donate for a flag. If not, let us see a flag waving to the breeze daily in honor of our boys in khaki."

"AN OLD SOLDIER."

This letter does not belong to the "Voice of the People" column; it belongs right here, and an answer should be made by the proper authorities as to why a flag is not flying. How can you ask a man to do his part in this war and pay "his share in fair" or buy "Liberty Bonds" if the county as a county does not pay respect to the flag?

Criticism of the men who stand on streets, who do not "uncover" when the flag passes, or auto owners who pass the flag being carried in parades will fall to the ground if a great eagle like Rock falls to show respect for the boys called into service.

NATIONAL EFFICIENCY.

Industrial production is a science, and in the world competition we must meet nations who conduct it on a scientific basis. We have in the past worked on a traditional and haphazard basis. If a mechanical or agricultural method was handed down by the fathers, it became fixed for many years. There were not many products which would analyze it to its elemental principles to find if it was correct.

There has been a lack of technical schools to impart to young men the most careful preparation for the mechanical arts. There was a lack of research to standardize formulas and processes of production. And most young men have not thought it necessary to pursue such courses of technical study as were within their reach. In many lines now there are works of technical information available. But the majority of young men engaging in these callings do not study these sources of information.

Recent years, it is true, have shown a marked trend toward better method and science. Many factories that used to buy raw materials by guess work and get cheated half the time, now depend on laboratory tests. Thereby they get a product that they can depend upon.

If we are going to make shoes or steel, or raise potatoes, we need to know all there is to know about shoes and steel or potatoes. The people who understand all the constituents of our raw material, how it tends to vary from standard form, what defects it is likely to suffer from, how it will work under all conditions.

This spirit of patient, indefatigable investigation of detail, of research for complete information about processes and materials, is necessary to any national efficiency. The people who are winning today are those who have caught this idea of patient, intensive study—all of our sources of information about their work.

There is an inquiry to know what has become of the man who used to jog along behind Old Dobbin, drinking in the beauty of God's country? Latest account of him was that he had just swapped off his car because it would run only to twenty-five miles per hour.

While gasoline stations and repair shops along the road are necessary for the comfort of the motorists, the equipment will not be complete until they get hospitals, undertakers, and cemeteries.

A correspondent writes to ask if a certain patent medicine will cure dyspepsia? It will no doubt be helpful,

as you will get valuable exercise walking down to the drug store after it.

Someone wants to know what has become of the people who thought that setting our clocks ahead an hour was a backward move? Well, our last advances were that they were having a high old time enjoying outdoor sports in the long evenings.

The Huns don't have to win a real victory over the American trenches, as the Germans at home are just as well pleased with a fake report of victory.

The news censorship should be temporarily relaxed so that Kaiser Bill shall be accompanied with all the details about the big Liberty loan subscription.

The people who don't want to buy a bond and pay for having the fighting kept on European soil, can have it right here in this country if they want it.

However, with Charley Schwab building the ships, those smart U-boats will have to get up in the morning before they go to bed at night.

Confidence is expressed that the United States will win the war, as we are putting an enormous number of men into the street parade.

Those splendid blueprints of our battle planes don't help the American troops a bit when the enemy bombs our trenches.

Mr. Hindenburg seems to enjoy giving up two men for every one our allies lose.

The most terrible general we have to meet in this war is not Gen. Hindenburg, but Gen. "Delay."

ON THE SPUR of the MOMENT

ROY K. MOULTON

In the New York elections the new women voters favored the dry and the wet about equally, which sort of upset the dope, or at least leaves it in doubt, which is just as bad.

Among the missing, Emma Goldman, Berkman, Carver, Tracy, the Bandit, Death Valley Scotty.

The other day we unwrapped a box from a newspaper which was four years old, and we glanced over the headlines. Them was the days.

"Carranza Says America Fears the Mexicans."

"Luther Burbank Invents An Odorless Onion."

"King of Spain Is Great Lover of Sports."

"British Navy Will Attend Kaiser's Regatta at Kiel."

"Nothing But Baseball To Think About Now."

"Mrs. Pankhurst Is the Talk of All England."

OUR WAR EXPERT SPEAKS:

By J. Fuller Bloom.
(Mr. Bloom is one of the most eminent strategists and Blackens-derfer strategists.)

From what I can observe of going on along the western front, I feel safe in predicting that the war will not be over by the Fourth of July. I know this may not coincide with views expressed by other war experts, but I cast my own horoscopes and those who follow me closely know that I am general right.

I believe it is safe to say that the Germans are losing many men in their onslaughts. The allies do not load their guns with soda pills. There are several German divisions on the British front at present, and a great deal of ammunition is being shot away each day.

It is for three miles from Calais to Caen, over a gently undulating country. I feel safe in predicting that none of the Kaiser's six sons will be badly wounded in the present fighting. I don't believe any gun carries far enough to hit them.

President Poincaré of France always wears a soft hat when going to the front.

Gen. Foch photographs well, but is not fond of posing for the movies. There are 6,674 American magazine writers at the front, and the situation looks very bad indeed for the white paper problem.

Ypres is pronounced with the accent on the "r."

It takes 1,897 pounds of powder to fire one shot from the great German gun in Gohlan forest. I remember this forest well. I was there in 1894. The war is still in progress, and there is considerable activity except among the Bulgarians.

Gen. von Kautschmitt, the eminent German strategist, is fifty-seven years of age.

I think my resume of the situation for today may be depended upon as entirely accurate.

Who's Who In Today's News

JONKKEER JOHN LOUDON.

Jonkkeer John Loudon—Jonkkeer is a title corresponding to knight, its bearer being a member of the nobility—was minister of the Netherlands to the United States ten years ago. In 1909 he represented his government at the dedication of two bronze tablets presented to the city of Philadelphia by the Society of Colonial Wars, and gained many admirers by his admirable demeanor.

The events commemorated by the tablets were the establishment of the first Dutch trading station on the Delaware in 1623 and the landing of Peter Minuit and his band of adventurers in 1624.

John Loudon was a man of retiring disposition, a scholarly, well-informed diplomat with many friends in the diplomatic circles of the capital. The fact that the serious responsibilities that have been thrust upon him would seem to be quite foreign to his quiet and equable nature.

Today, however, this foreign minister of the Netherlands, the modest diplomat of a few years ago, bids fair to become a world figure in the great conflict. He has been the central figure in the recent difficulty between Holland and Germany.

Just Folks

By Edgar A. Guest.

IT'S ALL IN THE FLAG.

It's all in the flag! The love for your lad,
The dream for his future and days that are his,
The joys of your children, your hopes for the years,
The laughter and sunshine to banish their tears,
The plans you are building, your riches and all,
Are wrapped in Old Glory. So don't let it fall.

It's all in the flag! There is nothing in your own
That you can defend or make sure of alone;
You may bury your treasures down deep in a mine,
May hoard in a vault your securities fine,
But they're not worth the trouble to carry them there,
Unless you are leaving Old Glory in air!

Your boy's education, your dream for the future,
Your daughter's protection from all that is bad,
The home you're so proud of, the fortune you'd make,
The rest of your life's twilight you're planning to take,
Are wrapped in the flag that flies over us all,
And you've wasted your life if Old Glory should fall.

5,500 PACKAGES OF SEED DISTRIBUTED

Seed Committee of City Federation Has Disposed of Many Seed Packages to School Children.

A special meeting was held yesterday morning by the board of the City Federation of Women, to make arrangements for finishing up the business of the year before the annual meeting on Saturday. The resignation of Mrs. Fenn, who has been matron of the rest room, was received with regret by the board and accepted, the secretary being empowered to write a letter of recommendation for her expressing the thanks of the society for her excellent work. Mrs. F. P. Nicholson was unanimously elected to succeed Mrs. Fenn as matron of the rest room. Mrs. Judd and Miss Harris were appointed a nominating committee to make out a list of candidates for office for another year. An amendment to the constitution was proposed creating the office of corresponding secretary, which will be voted on at the annual meeting.

Mrs. S. M. Smith was empowered to make suitable arrangements about a piano for the rest room.

A report of the seed committee, made by the chairman, Mrs. Munger, showed that 5,500 packages of seed were distributed by her committee to the school children and that after paying expenses there was a fund left of about thirty dollars. This was voted into the general fund to pay expenses for the rest room.

A committee of ladies was appointed to confer with the aldermen of the different wards. They were: First ward, Mrs. Atwood and Mrs. Munger; second ward, Mrs. Grant and Miss Agnes Weber; third ward, Mrs. F. C. Capelle and Mrs. E. Sheldon; fourth ward, Mrs. Macdon and Mrs. E. D. Hemming; fifth ward, Mrs. T. P. Burns and Mrs. George Rumlilla. The arrangements for the luncheon to be held on Saturday at one o'clock at the Congregational church were reported by Mrs. Capelle, chairman of the committee. Those seeking recognition were asked to secure tickets from club presidents, heads of groups, or from Miss Greenman, who has that matter

in charge. Members of the federation were urged to attend the luncheon on still attend the address of Miss Mariatt, which will be in the Sunday school room upstairs.

Members of the federation were urged to attend the luncheon on still attend the address of Miss Mariatt, which will be in the Sunday school room upstairs.

CITY WATER WORKS DISCUSSED AT MEETING

New Board of Public Works Held First Meeting at City Hall Yesterday Afternoon—Charles Valentine Named As President.

Janesville's new board of Public Works had their first meeting in the mayor's office yesterday afternoon at five o'clock. Mayor Charles Valentine was elected president of the board and City Clerk James B. Worthington was named ex-officio secretary of the board.

The water works question was then taken up and discussed fully for nearly an hour. No definite plan by which to run the water works was reached. Many different plans by which the water works could be run were discussed but owing to the fact that the members of the board thought it advisable to investigate further nothing definite was done. The meeting adjourned until seven-thirty o'clock this evening. It is thought that a definite arrangement for operating the water works will be reached at the meeting this evening.

The members of the board are Mayor Charles Valentine, City Attorney Roger Cunningham, City Engineer Kerch, Aldermans Welsh and Horn.

NO LOWER FARES FOR WORKMEN IN OSHKOSH

[BY ASSOCIATED PRESS.]

Madison, May 8.—The lower fare for working men in the city of Oshkosh has been knocked out by an order of the Wisconsin railroad commission. The Eastern Wisconsin Electric company filed application for reduction of service and a discontinuance of the practice of furnishing eight tickets for 25 cents to workmen. The city protested against the reduction and upward of one thousand workmen filed a petition with the railroad commission in opposition.

In the order discontinuing the eight tickets for a quarter the commission established in lieu thereof twenty-five tickets for one dollar, or twelve tickets for fifty cents. The company is also authorized to operate one man wire in the Oshkosh railway system upon the proper remodeling of the car entrances.

**Honor the best mother who ever lived---your own****Mothers' Day, Sunday, May 12th**

The general object of Mothers' Day is a simultaneous observance throughout the country of the love and gratitude men women and children and the nation owe to their good mothers

This most beautiful sentiment originated with Miss Anne Jarvis of Philadelphia. The happy thought occurred to her that all mothers whether living or dead, should be especially honored some one day each year, and the second Sunday in May was set aside by the Congress of the United States, as "Mother's Day."

For Mothers Living ---Blossoms Bright For Mothers' Memory ---Flowers White

From a small beginning only a few years ago this idea to honor and commemorate the Mother has grown to the dimensions of a national holiday. The wearing of carnations was the first suggestion for "Mother's Day" but so popular has the idea of "Mother's Day" become that most persons desire to send a bouquet, basket or box of flowers.

BIBLE PICTURE QUERY—50

What Chapter and Verse in the Bible Gives the Guide to Heaven in Three Words?

**Curious and Unusual Bible Questions**

Look at the picture above, then turn to your Bible and find the answer to the question. The picture illustrates the verse in which the answer will be found.

Each week we will publish an illustrated question from the Bible and the following week publish the answer. See if you can find the answer before we publish it! Make a family pastime of this interesting feature—it will amuse and instruct you.

Last Week's Question and the Answer

Last week's query: "Where in the Bible is the first mention of Church Letters being used?" This is answered in Acts, Chapter 15, Verse 23:

And they wrote letters by them after this manner: The apostles and elders had brethren send greeting unto the brethren which are of the Gentiles in Antioch and Syria and Cilicia.

RAPID-FIRE START OF LEAGUE LEADERS DOES NOT MEAN THE PENNANT

[BY ASSOCIATED PRESS.]
New York, May 8.—If the records of past seasons can be accepted as a criterion, the unusual performance of the leading clubs in the major league pennant races to date do not necessarily indicate a runaway winning of the National and American league championships this year. While it is true that the New York Nationals and Boston Americans are the most successful clubs during the first two weeks of the season there is nothing in the history of either league to substantiate the belief that these two teams will continue their extraordinary percentage of victories and thus clinch the pennants long before the schedules are completed.

Several unusual factors enter into the situation this season. One of the most important is the fact that the major league play opened later than has been customary in past years. While the New York Giants completed the season of April with eleven victories but lost one defeat and Boston lost two games out of thirteen played, such a high winning percentage would hardly be maintained with the increased number of games. Opinions of the circuit teams. Opposing combinations are certain to play stronger with the approach of summer weather, increasing practice and competition. Furthermore, the most serious west coast is likely to develop closer struggles and a broader distribution of victories.

It should be noted that the play of the clubs in both leagues would appear to bear out the opinion that, remarkable and impressive as the sports of the Giants and Red Sox have been, they cannot be maintained at any rate like the speed shown during the first two weeks of the season. Although the New York Nationals, winning percentage of .647, are the highest on record for the first ten years, and the Boston Americans, .546, the second highest in the American league for the same period, the record stands out that very few of the clubs which have led the league in May 1 also closed the season in first place.

But three such examples have occurred in the history of the league since 1893. In that year the Chicago Cubs closed the month of April with eight games won and three lost for a percentage of .727. The same team also won the pennant with .543. In 1915 the Philadelphia led on May 1 with a percentage of .800 and closed the season in first place with .594. Last year the Giants closed April with a percentage of .667 and finally won the pennant with .630. In the American league, Detroit, in 1909, won the pennant with .549 and captured the pennant with .545. The Philadelphia Athletics also duplicated the feat in 1913 when they won their way into the world series with a winning percentage of .667 after leading on May 1 with .769.

It will be seen from the foregoing that in the past ten years but two of the sixteen clubs composing the two major leagues, comprising the first two weeks of the season, have begun out in front at the close of the race in April and still had the stamina and playing ability to finish the scheduled season, showing the way to the rival clubs.

EVERY NEW YORK FAN IS RIDING HEINE ZIM

[BY INTERNATIONAL NEWS.]
New York, May 8.—It has come to a point where the fans just can't keep their eyes off Heinie Zimmerman.

The example set by the rabid adherents of Chicago is being well followed in New York. Heinie is followed in a play that works with reverse English on his glory.

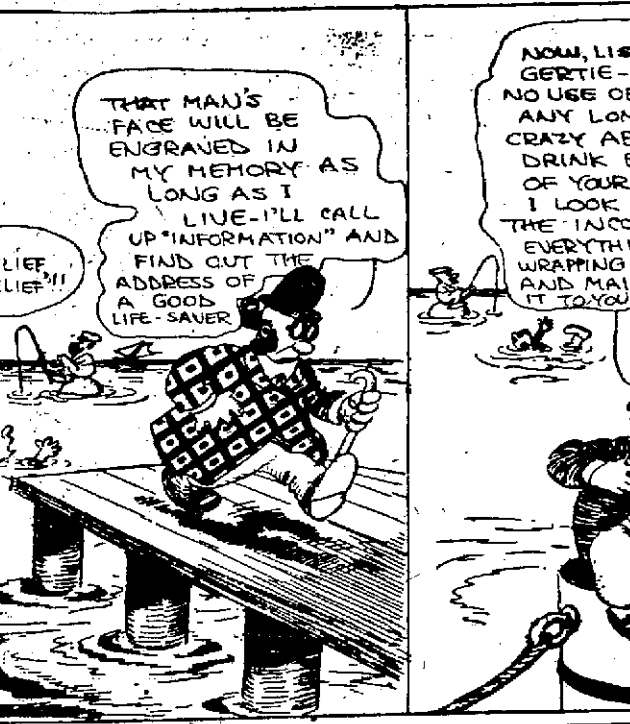

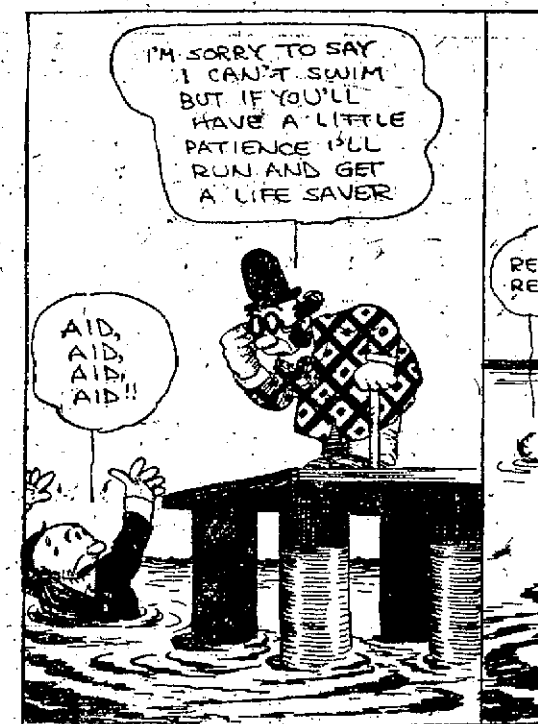

Memories of the famous play in which Heinie pursued Eddie Collins across the field in the last world's series must rankle in the breasts of the New York fans, for they certainly have picked him out to ride, and everyone is a jockey.

A short time ago Heinie gave the fans a change, and they went after him. Strong, Ivy Olson was the brilliant hit in this play, which too played in the hands of Heinie. The Giants string of opening victories was interrupted by a dinky fly over the head of Heinie. Heinie started after it, but he could take care of it, so he let it go. The ball, Arthur Fletcher and Larry Doyle also, decided to horn in and they all went after the ball. The four of them, suddenly, all went for the ball, and Heinie, who was supposed to be the protector, kept on and made that basket without any trouble.

And the crowd rode Heinie Zimmerman. Zim was the goat. He was more to blame for what had happened than he was when Bill Raviden slipped out of the way and let Heinie chase the fly. He beat it for second. Heinie Zimmerman was the only member of the Giants to take note of the situation, and he decided to second base, waiting for the throw. No one threw, so also, discovering that third base also was denuded of a protector, kept on and made that basket without any trouble.

But Heinie Zimmerman wouldn't be the great Zim and all the rest of the things they call him if he didn't break out occasionally with a chance to give him a little more to ride. His disposition invites the attack of the spectator, even though his misstep is one that would be totally overlooked in another player.

MIKE AND IKE—THEY LOOK ALIKE.

BASEBALL STAR TO FIGHT HUNS

Capt. Edward C. LaFitte.

Capt. Edward C. LaFitte, D. R. C., will be remembered by fans as a member of the Detroit Tigers' leading staff and later with the Brooklyn Dodgers. After quitting baseball he was a professor in a dental college. He entered the army as a lieutenant and was later advanced on completing a course of study. He is now on his way to France.

EPISCOPALIANS LOSE TO ST. PAUL'S BOWLERS

Episcopalian bowlers were taken into camp last night by the St. Paul aggregation in a game which was decided by a margin of 100 pins. The Episcopalian bowlers, who had been leading the series, were defeated by the St. Paul team, who won by a score of 100 to 0.

St. Paul, Minn., May 8.—Every person attending the opening game of the St. Paul club of the American association, against Milwaukee, here today, voted on whether the time of games this summer shall follow the clock of the sun.

Each fan as he bought his ticket was given a ballot by which to register his choice as to continuing the former time of 3 p. m. for west side "single-header" games, or of opening at 4 p. m.

NOT IVAN'S FAULT THAT ROBINS LOSE

Ivan Olson.

With the Brooklyn Robins losing game after game, the great playing of Ivan Olson at shortstop goes practically unnoticed. Ivan in the games to date has made wonderful stops of hard hit balls to his territory, thereby killing not a few base hits. At bat he is the most dependable man Robbie has.

Sport Snap Shots

MORRIS MILLER

Bryan Downey of Columbus should be our next welterweight champion. He should if his manager's luck holds out.

Bryan's manager is none other than the irrepressible Thomas Jones, of the old tongue and sparkling cravats. Tom is known as the maker of champions. It seems that he has some sort of magic touch about him, and all he has to do to make a boy a champion is to take him under his wing. Jones piloted Billy Papke to the middleweight title, Ad Wolgast to the lightweight throne and Jess Willard to the heavyweight crown.

It will be noted that Tom doesn't specialize in any one division. At present he is aiming at the welterweight class, which is now headed by the clever Ted Lewis. Downey is a clever boy, too, and he can punch pretty well. The chances are he would make matters interesting for Lewis.

Wonder what the pacifist Mr. Bryan would say if he knew the fighting Mr. Downey was named after him?

Well, the great Alexander is now in khaki, shouldering a musket for your old Uncle Sam. Alex cost the Cubs, according to revised figures, \$45,000, including a bonus of \$5,000. He worked in four games, before he left for camp, which means that he got about \$12,000 a game for his services—undoubtedly the highest price ever paid for big league pitching. Alex was wise enough to collect his bonus before he pitched a single ball, so the beginning of his career finds him very comfortably off.

Owner Weegman took his loss like a true sport. "Any man on my team that Uncle Sam wants he can have at a moment's notice," said Weegman as he shook hands with his big pitcher on the day of departure. Of course the loss of Alex is a big blow to the Cubs' pennant chances, as he was certain to turn in at least twenty-five victories.

Laughing Larry Doyle, who is back with the Giants, seems to be as good as ever. The early games have presented him as the same vicious batter, sharp fielder and peppery hustler as of yore. His work around the second sack is flawless and he shows no signs of weakness in the leg which was broken at Chicago two years ago. With the exception of Matthews there has never been a more popular player on the Giants' roster.

Another major leaguer who seems to have come back splendidly is Guy Morton, the Indians' pitcher. Two years ago Guy gave every indication of developing into a sensational pitcher. Suddenly his arm sprang a kink, and since then he has been next to worthless in the box. But this season he has started out like a champion; his arm gives him little or no pain, and Manager Felt expects him to turn in about twenty victories.

REDMOND'S SON MAY TAKE HIS PLACE

Capt. D. A. Redmond.

Captain Redmond is the son of the late John Redmond and he is a candidate for his father's place in parliament.

When someone has knocked a white place in the wall paper copy the proper coloring of the figure with crayons and the spot will not show.

SOLDIERS WILL CAMP NORTH OF JANESVILLE

101st Artillery Brigade Marching from Camp Grant to Sparta Will Pass Through This City.

Citizens of this city will have the opportunity of seeing a fully equipped artillery brigade on a march. This became known today when the route for the 101st Artillery brigade from Camp Grant to Sparta was made public. The march will start about the 14th of May and in all probability the soldiers will reach this city on or about May 16th.

In the march there will be several thousand men, 1100 horses, all of the big guns and the same equipment as the men would have were they marching in enemy territory. Officers of Camp Grant have been making arrangements for the arrival of the troops. It takes three cords of wood, 200 bushels of oats, four tons of hay each day while they are on the march.

The route has been given out shows that the men will camp near Roscoe the first night out of Camp Grant. On the second night they will place their pup tents near the Curtis farm in the vicinity of Town Line. Their third stop will be on the E. T. Fish property at Leyden. It takes forty acres of land for the men to camp on.

It will be the first opportunity this city has had in many years to see a fully equipped marching brigade and the sight should prove very interesting for signing. In the line of march many men will be in this city and surrounding cities.

The brigade will stay at Sparta for two months, where they will practice with the big guns. They will leave Sparta for France without returning to Camp Grant.

SCHOOL COMPANIES ARE CONSOLIDATED

One Company Is Formed and New Officers Appointed to Take Charge of the Drill Work.

As a means of increasing the efficiency of the drill work and to make a larger unit, the two high school military companies, the high school complete reorganization and consolidation last evening at the armory of C. G. G. Instead of the high school battalion, composed of two companies, they now have one large company with about eighty boys enlisted in the ranks.

The three officers to conduct the drill work for the newly organized company were chosen by a representative of the State Guard company. With the two companies drilling there were six commissioned officers and all were willing to abide by the decision of the officers from C. G. G. who chose the three new officers. The three who were not chosen will go back to the ranks as sergeants.

Robert Stine was selected as captain, Harold Persons first lieutenant and Gerald McGormott second lieutenant. Non-commissioned officers selected were Howard Gage first sergeant, Clark Finley quartermaster, Roy Keller right guide, Magnus Hanson left guide, and Alfred Schoof sergeant. Eight corporals were also selected.

Following the reorganization of the unit the company was taken out-of-doors for a short drill on the streets and showed a very decided improvement in their work, which was gratifying to the new officers in charge. Many of the boys were present at the instructions given by General King, U. S. A., to the state guard and put the new points into practice.

The next drill for the company will be held Thursday evening at seven o'clock. The company will form in front of the high school building and will devote the drill period to more fundamentals of close order drill.

Crayon Will Help.
When someone has knocked a white place in the wall paper copy the proper coloring of the figure with crayons and the spot will not show.

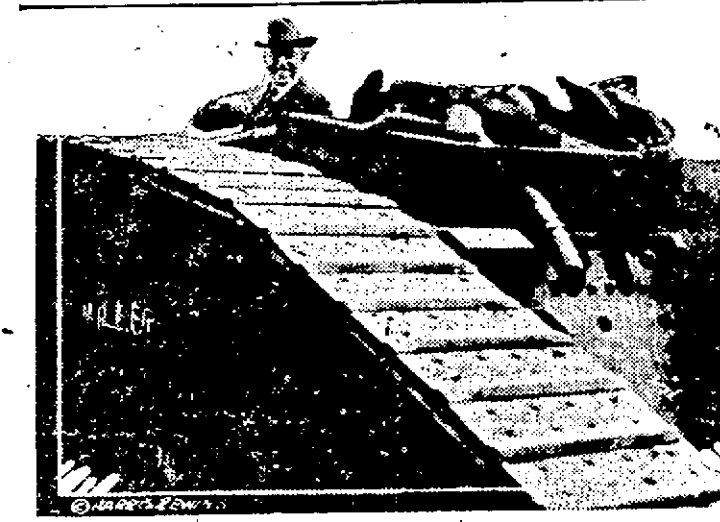

For Revenue Only.
Most of the time the plaintiff would hit the nail upon its well-known head if she'd spell it income-taxability.

One of the most carefully read pages of the Gazette is the classified—in fact everybody reads it. Advertisers will do well to remember this and use that page often.

These applications will be handled promptly on account of the lateness of the season—England has had 6,000, Canada 1,000, Michigan 1,000, Ohio 1,000, Iowa 1,000, Kentucky 200 Tractors under this plan. Wisconsin farmers are to be next to benefit by it.

The above welcome news was announced by Mr. Robert F. Buggs. It constitutes a formal announcement to the effect that the Henry Ford & Son tractor factory which has been doing war service for other countries and other states these many months is now being placed at the disposal of Wisconsin farm-

PRESIDENT RIDES IN BATTLE TANK

President Wilson took a ride in the battle tank Britannia when it recently visited Washington. He spent ten minutes in the tank and on the top while enthusiastic onlookers cheered.

Los Angeles fans are already betting that Sam Crawford will lead the Pacific Coast league in hitting. It leads it in anything it will be that.

FROM FACTORY TO FARMER AT FACTORY PRICES

Ford Booster Badger Food Production; Supplies Tractors Direct to Farmers at Factory Prices Through Fond du Lac

Mr. Ford's motive is to increase the production of food and I am instructed to place his plans in the hands of the proper officials in this locality who are interested in increasing their productive acreage.

Shipments will start immediately and I will receive applications from farmers or others interested.

These applications will be handled promptly on account of the lateness of the season—England has had 6,000, Canada 1,000, Michigan 1,000, Ohio 1,000, Iowa 1,000, Kentucky 200 Tractors under this plan. Wisconsin farmers are to be next to benefit by it.

The above welcome news was announced by Mr. Robert F. Buggs. It constitutes a formal announcement to the effect that the Henry Ford & Son tractor factory which has been doing war service for other countries and other states these many months is now being placed at the disposal of Wisconsin farm-

ers at factory price to the end that they may bring food production up to the maximum point this season, when food production must be stimulated to the utmost in order to win the war.

For the reason that the need of the allies for food was greater than that of the people in this country, Mr. Ford built tractors for England and France before he built them for America. A total of 8,000 Ford Tractors have been built and sent to England where they are now doing service. An order of 1,000 tractors has just been completed for Canadian farmers.

Then Mr. Ford allowed tractors to go to the farmers of Michigan and Ohio ten days ago. Wisconsin is the sixth state in the union to have the product of the Ford tractor plant placed at the disposal of its farmers. The Wisconsin distribution is to be made

by T. W. Meiklejohn from Fond du Lac.

It will be noted that these machines are to be sold to farmers at factory price—\$750. The farmers will pay the freight. Mr. Buggs will render his services free. There will be no middleman's profit. This is the Ford plan of distribution. Mr. Ford will not handle his tractors through agents and no profits for distribution are permitted to go to anyone.

To relieve the railroad burden in war time it is necessary for these tractors to be shipped from Dearborn, Mich., in carload lots, six tractors being loaded in each freight car.

Farm readers of the Gazette who are interested in this announcement should mail the following coupon at once to Robert F. Buggs, Janesville, Wis.

MR. ROBERT F. BUGGS, Janesville, Wis., 12-18 N. Academy St.

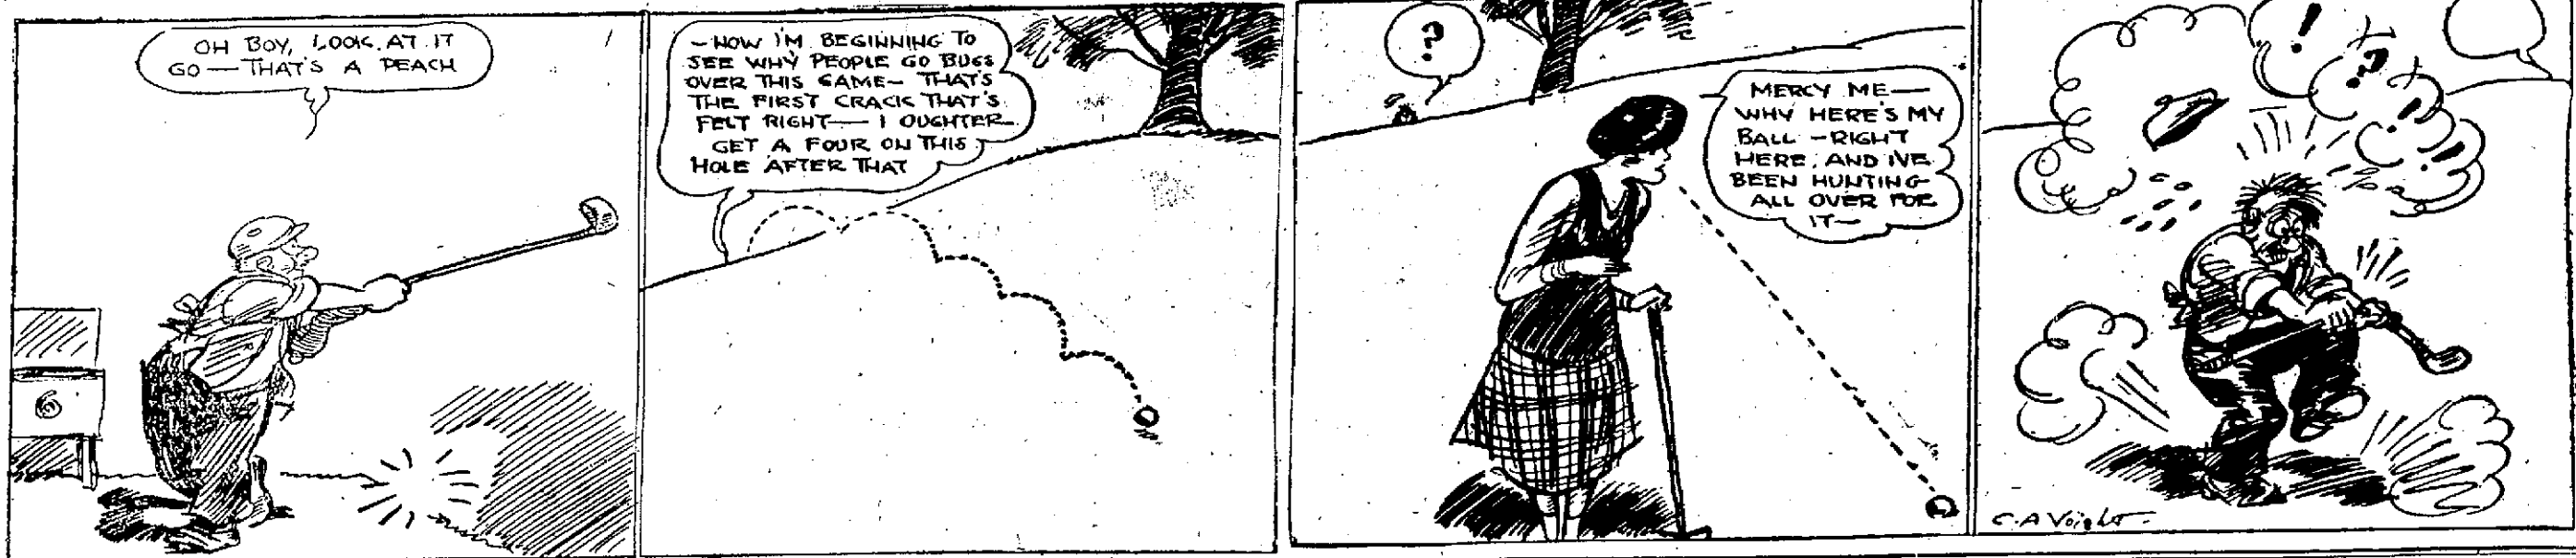

Please give me complete information at once concerning the distribution of tractors by Henry Ford and Son.

NAME POST OFFICE COUNTY

Mr. Henry Ford has been invited and is expected to attend this demonstration. Every farmer in Rock County who is interested is urged to send the coupon in this advertisement to me or phone me at once regarding their plans to attend.

ROBERT F. BUGGS Authorized Ford Agent. 12-18 N. Academy St., Janesville, Wis. Branch at Milton Jct., Wis.

RAINBOW'S END

A NOVEL

By BEN BEACH

Author of
"The Iron Trail," "The Spellers,"
"Heart of the Sunset," etc.

Copyright by Harper and Brothers

Rosa hung over the outfit above, encouraging him, inquiring eagerly as to his progress. During his frequent

"It Begins to Look as If There Really Was a Bulkhead."

breathing spells he could discern her white face dimly illumined by the candle light from below.

After he had worked for an hour or two, he made a report: "It begins to look as if there really was a bulkhead or a door in there."

"The girl clapped her hands and laughed with delight. 'Do hurry, dear; I'm dying of suspense.'"

O'Reilly groaned: "That fellow, Sebastian, knew his business. This cement is like steel, and I'm afraid of breaking my crowbar."

Rosa found a leaf, folded a kiss into it, and dropped it to him. "That will give you strength," she declared.

O'Reilly lost all count of time after a while and he was incredulous when Jacket came to warn him that daylight was less than an hour away. "Why, I haven't started!" he protested. He discovered, much to his surprise, that he was ready to drop from fatigue and that his hands were torn and blistered; when he had climbed the rope to the upper air he fell exhausted in the deep grass. "I'm not myself at all," he apologized; "nothing to eat, you know. But the work will go faster now, for I've made a beginning."

"Do you still think—Rosa hesitated to voice the question which trembled on her lips.

"I'll know for sure, tonight." He directed Jacket to replace the planks over the well; then the three of them stole away.

O'Reilly spent most of that day in a profound stupor of exhaustion, while Rosa watched anxiously over him. Jacket, it seemed, had peacefully slumbered on picket duty, so he occupied himself by retreating away at his knife. The last scraps of food disappeared that evening.

When night fell and it came time to

return to the top of La Cumbre, O'Reilly asked himself if his strength would prove sufficient for the task in hand. He was spiritless, sore, weak; he ached in every bone and muscle, and it required all his determination to propel himself up the hill. He wondered if he were wise thus to sacrifice his waning energies on a hope so forlorn as this, but by now he had begun to more than half believe in the existence of the Varona treasure and he felt an almost irresistible curiosity to learn what secret, if any, was concealed behind those water-soaked timbers at the bottom of the well. He realized, of course, that every hour he remained here, now that food and money were gone, lessened the chances of escape; but, on the other hand, he reasoned, with equal force, that if he had indeed stumbled upon the missing hoard salvation for all of them was assured. The stake, it seemed to him, was worth the hazard.

Given tempered tools to work with, it would have been no great undertaking to tear down that cemented wall of stones, but armed with nothing except his bare hands and that soft iron bar, O'Reilly spent nearly the whole night at his task. Long before the last rock had yielded, however, he beheld that which caused him to turn a strained face upward to Rosa.

"There's a little door, as sure as you live," he told her.

The girl was beside herself with excitement. "Yes? What else? What more do you see?"

"Nothing. It appears to be made of solid timbers, and has two huge hand-wrought locks."

"Looks! Then we have found it!" Rosa closed her eyes; she swayed momentarily. "Esteban was right. Locks, indeed! That means something to hide. Oh, if I could only help you!"

"Heavens! If I only had something—anything, to work with!" muttered the American as he fell to with redoubled energy. He no longer tried to conserve his strength, for the treasure seeker's lust beset him. Rosa looked on, wringing her hands and urging him to greater haste.

But the low, thick door was built of some hard, native wood; it was wet and tough and slippery. O'Reilly's blows made no impression upon it, nor upon the heavy hasps and staples with which it was secured in place. The latter were deeply rusted, to be sure, but they withstood his efforts, and he was finally forced to rest, baffled, enraged, half hysterical from weakness and fatigue.

Daylight was at hand once more, but he refused to give up, and worked on stubbornly, furiously, until Rosa, in an agony, besought him to desist.

Johanne again collapsed on the grass and lay panting while the other two replaced the planks.

"Another hour and I'd have been into it," he declared, huskily.

"You will kill yourself," Jacket told him.

Rosa bent over him with shining eyes and parted lips. "Yes," said she, "Be patient. We will come back. O'Reilly, and tonight we shall be rich."

Colonel Cobo lit a black cigarette, leaned back in his chair, and exhaled two three jets of smoke through his nostrils. For a full moment he scowled forbiddingly at the sergeant who had asked to see him.

"What's this you are telling me?" he inquired finally.

The sergeant, a mean-faced, low-browed man, stirred uneasily.

"It is God's truth. There are spirits on La Cumbre, and I wish to see the priest about it."

"Spirits? What kind of spirits?"

The fellow shrugged. "Evil spirits—spirits from hell. The men are buying charms."

"Bak! I took you to be a sensible person."

"You don't believe me? Well, I didn't believe them when they told me about it. But I saw with my own eyes."

"A ghost, my colonel, nothing else. La Cumbre is no place for an honest Christian."

The colonel burst into a mocking laugh. "Ad honest Christian! You! Of all my vile ruffians, you are the vilest. Why, you're a thief, a liar, and an assassin! You are lying to me now. Come—the truth for once, before I give you the compote."

"As God is my judge, I'm telling you the truth," protested the soldier. "Flog me if you will—rather the compote than another night in those trenches. You know that old quinta?"

"Where Pancho Cueto made a goat of himself? Perfectly. Do you mean to say that you saw old Esteban Varona walking with his head in his hands?"

"No, but I saw that she-devil who fell in the well and broke her neck."

"Eh? When did you behold this—"

return to the top of La Cumbre, O'Reilly asked himself if his strength would prove sufficient for the task in hand. He was spiritless, sore, weak; he ached in every bone and muscle, and it required all his determination to propel himself up the hill. NUXATED IRON

"Say Doctor This Prescription Works Like Magic."

Phylogen Nuxated Iron Quickly Fills Aching Strength and Energy into the Veins of Men and Brings Roses to the Cheeks of Nervous, Run-Down Women.

Ask the first hundred strong, healthy people you meet to what they owe their strength and see how many reply "Nuxated Iron." Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital, Outdoor Dept., New York, and the Westchester County Hospital, says: "Thousands of people suffer from iron deficiency, but do not know when to take. There is nothing like organic iron—Nuxated Iron to quickly enrich the blood, make healthy, healthy women, and strong, vigorous men."

To make absolutely sure that my patients get real organic iron and not some form of the metallic variety, I always prescribe Nuxated Iron. It is all plain enough, when you know the story. But it is terrifying."

"This is indeed amazing," Cobo acknowledged, "but of course there is some simple explanation. Spirits, if indeed there are such things, are made of nothing—they are like thin air. How, then, could they rattle chains?"

You probably saw some wretched pacificos in search of food and imagined the rest."

"Indeed! Then what did I hear with these very ears? Whispers, murmurs, groans, and the clinkety-clink of old Sebastian's chisel. For his sins that old slave is chained in some cavern of the mountain. Soundless! I'm no baby! I know when I'm asleep, and I know when I'm awake. That place is

accursed, and I want no more of it."

Cobo fell into frowning meditation, allowing his cigarette to smolder down until it burned his thick fingers. He was not a superstitious man and he put no faith in the supernatural, nevertheless he was convinced that his sergeant was not lying, and reference to Pancho Cueto had set his mind to working along strange channels. He had known Cueto well, and the latter's stubborn belief in the existence of that Varona treasure had more than once impressed him. He wondered now if others shared that faith, or if by chance they had discovered a clue to the whereabouts of the money and were conducting a secret search. It was a fantastic idea, nevertheless Cobo told himself that if people were prying about those deserted premises it was with some object, and their actions would warrant observation.

The presence of the woman—a woman with the glow of phosphorus upon her face was puzzling, but the whole affair was puzzling. He determined to investigate. After a time he murmured, "I should like to see this spirit."

The sergeant shrugged. It was plain from his expression that he could not account for such a desire. "Another night is coming," said he.

"Good! I shall visit the place, and if I see anything unusual I—well, I shall believe what you have told me. Meanwhile, go see your priest by all means. It will do you no harm."

(TO BE CONTINUED.)

Professor Graves was a member of a college faculty who had the not uncommon scholastic failing of absent mindedness. One day, it appears, his married sister favored him for a long time with loud praises of her first born. When she paused for breath

"Good! I shall visit the place."

"Good! I shall visit the place."

"Good! I shall visit the place."

"Good! I shall visit the place."

"Good! I shall visit the place."

"Good! I shall visit the place."

"Good! I shall visit the place."

Whole German Army Can't Stop Sams When They're After 'Chow'

"So we took it on the run, helping each other along, through a rain of all sorts of shells."

"Maybe you'd like to hear about our first day in the trenches," remarked Private John McCormack, who gave in a good job as a lookout at Starling prison to fight the battle in France. McCormack, who is of Irish extraction and thirty-one, is back in the good old U. S. A. with fifty other American fighters on a short furlough.

"Fritz gave us a stunning right from the go-out," he began. "We went in on the morning section, on the night of March 1—just as, my battalion, the second. There hadn't been any heavy firing there in more than two years. The French fellows told us as they came out, it was as safe as a church. 'Well, we hadn't been in there four hours before Fritz let go at us with everything he had. There was only one line of trench there, so that was nothing for us to do but to get down into our ditches. There wasn't any communication trench through which we could retreat to our rear lines. I was in a deep ditch with twenty-two men and a couple of officers when a heavy 'minnenwerfer' smashed right on top of it and buried us all underneath tons of earth. I was covered with dirt and debris up to my neck, and it was an hour before I was able to make the least movement toward digging my way out."

"Should those awful damage," there were a few screams to be heard, but mostly it was silent down there. And no wonder, for of the twenty-two men, only three were left. I worked myself free and found the other two fellows who were alive. We were all hurt, but were strong enough to try to dig our way up to the surface. "This is how we did it: One man would dig away earth with his steel helmet, then pass it to the second fellow, who would dig away the earth, then pass it to the third, who would chuck the dirt out of a little hole at the surface, through which we were getting air. Corporal Dehnar and Corporal Raymond were the other two fellows who made it."

TOBACCO CASE BEGUN IN MUNICIPAL COURT

Stephen Fanning Starts Action to Recover Payment for Tobacco Crop—Testimony Taken This Morning.

The case of Stephen Fanning versus the E. C. Jordan company was begun in the municipal court this morning before Judge Maxfield, with M. O. Mount appearing for the defendant and Edward Ryan for the plaintiff. The plaintiff is attempting to collect payment for a half share in a crop of tobacco which was sold to the defendant.

According to the defendant the contract for the crop was made with J. H. Miller, who came in in the near vicinity of Mr. Fanning's and on whose land the tobacco was grown, and to whom the sum of \$350 was paid. The plaintiff in his testimony given this morning said that his son, William, did the work of raising the crop and that the money was to be paid to him, the plaintiff.

Forged Note for \$150.

Roy Collins, of the town of Janesville, asked an examination when arraigned this morning, on the charge of forgery and feloniously giving a false and forged note for \$150. The note was given to Alex. A. Russell in payment for some automobile supplies. His examination was set for May 16, at ten o'clock, and he was released under \$100 bail, which was furnished by his father.

His stockman plead guilty to the charge of drunkenness and was sentenced to thirty days in the county jail by Judge Maxfield.

Evansville News

McCoy-Milligan. Evansville, May 8.—On Friday afternoon, May 8th, in the city of Rockford, occurred the marriage of Burchard M. McCoy of the town of Magnolia, and Miss Ruth H. Milligan, of Evansville. Miss Milligan is the daughter of Mr. and Mrs. Wm. Milligan, and has made Evansville her home the greater part of her life. She is a graduate of the Evansville high school and the Rock County Training school for teachers in Janesville. Mr. McCoy is the youngest son of Mr. and Mrs. G. L. McCoy, and is a prosperous young farmer. The many friends of Mr. and Mrs. McCoy wish for them happiness and prosperity.

Junior Prom on Friday Evening. Both the upper classes of the high school are tip toe with excitement over the Prom to be given Friday evening of this week, at Fisher's hall. The Junior class to the high and mighty Senior class, who will soon bid farewell to high school life. In former years, a banquet has been given annually by the Juniors, but this year the order has been changed and the Prom given instead. All committees are straining every effort to make this event an unusually interesting and pleasant one. The decorations are to be very pretty, and light refreshments will be served. The girl members of both classes will blossom forth in pretty new costumes, and the boys feel that this occasion requires something extra along the lines of their "toggling out" for the event.

Personals. The District Superintendent, Perry Miller, has appointed Rev. H. A. Misdall, of the Janesville district of the Methodist church, to fill the vacancy in the church here, caused by Rev. Lawrence leaving for Camp Custer. Rev. and Mrs. Misdall will arrive here Friday evening to take up their residence, next Sunday at Evansville citizens extend to them a hearty welcome.

Mrs. O. C. Colony has returned from Hot Springs, Ark., where she has been in attendance at the National Federation of Women's Clubs.

Dr. E. Denson is quite ill at his home on Second street.

Mrs. Fred Tuller and daughter, Inez, of Chetek, are here for a visit among relatives and old time friends.

Fred Allen has recently purchased a new automobile.

The "Fourers" Club held a very enjoyable meeting with Miss Daisy Spencer, at her home on Main street, last evening.

Colony was a Janesville visitor, Tuesday.

Mr. and Mrs. Chris Hendrickson moved to Janesville, yesterday.

Mrs. Fred Morrison is on the sick list at her home in the country.

Mrs. W. E. Dickinson, enroute from the Federation of Women's clubs, held at Hot Springs, Ark., to her home in Pullman, N. Dakota, paid a short visit to her sister, Mrs. Jay Baldwin.

The Birthday Club planned and executed a very pleasant surprise on two of its members, last week when they celebrated the birthdays of Mrs. C. H. Wilder and Miss Lilla E. Luddington at the home of Miss Luddington, last Friday.

A delicious supper was served and everyone enjoyed a thoroughly good time for both victims were so genuinely surprised.

Mrs. Sophie Caroline of Monroe has been a guest at the Charles Davis home on Main street this week.

Mr. and Mrs. Frank Cook are about to leave Evansville and make Chetek their future home.

Mrs. Burr Tolles, phone 344 private phone, represents the Gazette in Evansville. Franklin Clifford has charge of the carrier routes. Orders for subscriptions, and service complaints should be phoned him.

FOUND—A sum of money. Owner may have same by proving property and paying for this advertisement. Supt. J. P. Waddell, Evansville, Wis. Phone 14.

NOTICE TO FARMERS! There seems to be an erroneous impression that the business owned by the American Cheese and Produce Company of Chicago and whose agent was Joseph Collins, had been bought by the D. E. Wood Butter Company and the office closed. This is not true. Mr. Collins was merely an agent for the company and could not sell or dispose of the business to anyone. The American Cheese and Produce company takes this means to inform the public that their business is still here in Evansville at the same old stand across from the Grange store and is now conducted by Charles Becker. The phone number is 55. Thanking the farmers for their liberal patronage in the past and promising them the same courteous treatment in the future, we are, Respectfully, American Cheese & Produce Co., Chicago, Ill.

SELECTIVE DRAFT LAW APPREHENDS FUGITIVES

(BY ASSOCIATED PRESS.) Detroit, Mich., May 8.—As a detective the selective service law is one hundred percent Sherlock Holmes. More than 600 known fugitives from justice have been apprehended as a result of the workings of the draft legislation. Hundreds of others, government officials here say, are expected to come to the attention of the department of justice as the operation of the law continues. Included in the lists of offenses which have been revealed by questionnaires are dozens of Mann Act violations, and a number of drug addicts, wife abandoners and minor offenders have been unearthed. Many of the Mann Act violations, it was discovered after a close examination of the sworn answers on questionnaires, have occurred in other states, and government agents there have been advised at once of the information obtained by the Detroit bureau. James J. Bradley, collector of internal revenue, has been advised of a score of drug addicts who kept their craving for forbidden narcotics a secret until they claimed exemption from military service on the grounds of being permanently addicted to the drug habit. From these men information has been obtained which has enabled officers to trail drug peddlers who had previously escaped the eye of the government agents.

Non-support cases, many of which have been revealed, have been turned over to the government for further investigation. In many instances it was found that husbands in their questionnaires claimed exemption because they were the "sole support" of dependent wives. These men have been charged with non-support, instead of being inscribed on a list of men accredited to a cantonment, have been placed on a police blacklist. Charges of non-support written after them. In addition to their marital dereliction for which they will be made to answer, these men will be tried in a federal court for making false affidavits to their questionnaires.

EAST MILTON

East Milton, May 16.—Mr. and Mrs. Otto Fritzke spent Sunday at Stebbinsville at the home of August Scheldt's.

Mr. and Mrs. Theo. Dickhoff and son spent Sunday at the home of William Bentz near Milton.

Mr. and Mrs. Johnny Cashore and family of Milton Junction, spent the week end with Mr. and Mrs. Elva Cashore and family.

Mr. and Mrs. Geo. Jennings and family called at Otto Fritzke's Saturday evening.

Willie Voigt spent Saturday and Sunday at Edgerton.

Dangerous Position.

To be true to our friends and false to ourselves means the ruin of personal integrity.

Use the classified ads if you have anything to sell; they will surely sell it for you.

CAMP GRANT NOTES

(Wisconsin Eagles.) Company D. The following promotions have been made: Richard J. Ausfahl, Walter Scott and Warren L. Stafford, all of Chicago, were appointed sergeants from Corporals. Private Julius M. Laskey, 222 E. Hermitage avenue, Chicago, was appointed corporal. Company E. Corporal Earl S. Peterson, Chicago, graduate of the third officers' training camp, has gone to Camp Jackson, S. C.

Company I. James S. Robbins, Madison, Wis., has been a corporal since May 1st. A Western Union messenger boy came to Company I's orderly room last Saturday with a message for John Lavender. Sergeant William Woll was on duty and as Lavender's name is not on the company's roster, said to the boy, "We have a William Blue and a John I. Brown, but no Lavender."

Company M. At the regular Saturday inspection, Company M carried off high honors. The company was particularly deserving of credit in the way they handled recruits when they arrived. Upon arrival at midnight the men found accommodations all ready for them, the bunks having been prepared and the mess equipment all cleaned and laid out.

Headquarters Company.

Sergeant Bugler F. B. Woods has been transferred to the 311th cavalry stationed at Fort Bliss, El Paso, Texas. At the time of his second enlistment Sergeant Woods was living in El Paso.

Private John E. Musker, 1008 N. Lawrence avenue, Chicago, used hand saws to wash his towels.

Promotions.

To be sergeants, John V. Kolar, Haugen, Wis., to be corporals, First Class, Private Iva Standford, La Farge, Wis., First Class Private Benedict Bell, Kaukauna, Wis., First Class Private Bernard Spitzing, 138 E. 6th street, Chicago; Private Blaise Eliot, Cameron, Wis.; Private William Bolloch, Wausau, Wis.; Private Gerald Schlessman, Colorado Springs, Colo. Machine Gun Company.

The machine gun company baseball team defeated the headquarters company with a score of 6 to 0.

Private A. Leucht, La Valle, Wis., has reported back after a thirty day furlough helping his father on his farm.

LAUNCH CAMPAIGN OF LOYALTY OF WISCONSIN

Milwaukee, May 8.—Milwaukee manufacturers and business men have launched a big campaign to advertise Wisconsin's loyalty throughout the nation.

Letterheads, circulars and "stickers" will go out with every letter and mailing carrying information regarding Wisconsin's part in the war. The matter includes figures and facts showing Wisconsin is doing more than "her bit."

Burglars in most everything are listed in the classified columns.

IS NEW AUSTRIAN FOREIGN MINISTER

Baron Burian.

Baron Burian, who succeeds Count Czernin as the Austro-Hungarian foreign minister, was Czernin's predecessor, having served in that capacity from September 15, 1914, till December 3, 1916, when Czernin's administration began. Baron Burian had been the Austrian finance minister while Czernin was in the foreign office.

Not by a long way. "De man dat goes lookin' foh trouble," said Uncle Eben, "doesn't most always git de easy kind he had made up his mind to."

EXTRA ADDED FEATURE KNITTING ROOM FOR WOMEN

What's worse'n havin' nothin' less than a quarter when a subscription is taken up? asks Tell Binkley. There's plenty o' time 't find a steady girl after you've found a steady job.

Large assortment of attractive travel literature just received at Gazette Travel Bureau.

NATIONAL SERVICE WELFARE ASSOCIATION.

Executive Committee
President: Geo. M. McKev
Vice President: Thos. E. Welsh
Arrangements: Sidney Bostwick
Finance: William P. Langdon

Federal Committee
David Atwood.

Organized for the purpose of providing suitable entertainment and escort for men of the Selective Draft who are called into the Federal Service for the duration of the war, both while in the city and enroute to their respective stations. The dues to be two dollars monthly.

This organization plans to aid the Federal Government in investigations of alleged disloyal statements and acts and to do all in their power to secure convictions for such offences.

We the undersigned enroll ourselves as members of the National Service Welfare Association and agree to pay the dues prescribed for the duration of the war.

A PERFECT 36!

You can't be a "perfect" anything if you are not properly corseted.

There is an art in knowing just the right style to select in order to hide your defects (if you have any) and to bring out your good points.

Here's a "tip" for you. Take the first step toward acquiring a "perfect 36" figure by ordering one of the many models of the C/B a la Spirite Corsets at our corset department.

For the Woman of Fashion The Standard Everywhere

Protect Your Furs and Winter Garments

Wayne Cedar Paper Wardrobes are clothes protectors needed in every home. Nothing is better adapted for the care of clothing, furs, etc., keeping it absolutely ship shape, dust-proof and moth-proof. They are made of strong durable paper; are air-tight—clothes hang full length on shape preserving hangers. No part of any garment is folded or crushed. The fragrant, woody odor of cedar repels insects, but does not cling to the garments.

Prices Range From \$1.00 to \$1.50

The McCall Book of Fashions (for Summer)

Is Now On Sale Price 25c. In Canada, 30c.

Each copy contains a Coupon worth 15c. towards the purchase of any McCall Pattern.

PREPAREDNESS HITS JAPAN IN THESE WAR TIMES

Military drilling with bamboo sticks in Japan.

Japan is having a wave of preparedness such as was known in America through the early months of the war when hundreds of thousands organized battalions or companies and drilled with wooden guns or sticks. Japanese men and women are both going in for military drills and the photo shows them receiving military instruction in preparation for whatever of war the future may hold for them.
